460.6b Gas utility rates; authority of public service commission; rates, charges, classifications and schedules on file with federal power commission received in evidence; proceedings; appeal; refund.

by said gas utility to the public served by it, and the cost for such gas is regulated by the federal power commission, the Michigan public service commission shall have the authority set forth in this section. In any proceeding to increase the rates and charges or to alter, change or amend any rate or rate schedule of a gas utility, the Michigan public service commission shall be permitted to and shall receive in evidence the rates, charges, classifications and schedules on file with the federal power commission whereby the cost of gas purchased or received by such gas utility is fixed and determined. If, while such proceeding is pending before the Michigan public service commission, a proceeding shall be instituted or be pending before said federal power commission, or on appeal therefrom in a court having jurisdiction, with respect to or affecting the cost of gas payable by such gas utility, said Michigan public service commission shall consider as an item of operating expense to said gas utility the cost of gas set forth in said rates, charges, classifications and schedules on file with the federal power commission. If the cost of gas payable by said gas utility shall be reduced by the final order of the federal power commission or the final decree of the court, if appealed thereto, and the Michigan public service commission shall have entered an order approving rates to said gas utility as aforesaid based upon the cost of gas set forth in the rates, charges, classifications and schedules on file with the federal power commission which were later reduced as above set forth, the Michigan public service commission upon its own motion or upon complaint and after notice and hearing may proceed to order refund to the gas utility's customers of any sums refunded to the said gas utility for the period subsequent to the effective date of the Michigan public service commission order approving rates for the gas utility as above set forth.

Act 144, 1909, p. 307; Eff. Sep. 1.

AN ACT to regulate the issuance of stocks, bonds and other evidences of indebtedness by persons, corporations and associations owning, conducting or operating certain public utilities, and to provide a penalty for the violation thereof. Am. 1915, p. 457, Act 259, Eff. Aug. 24.

The People of the State of Michigan enact:

460.301 Public utilities securities; approval by commission; appraisal of property, expense; review of order.

Sec. 1. Any corporation or association except municipal corporations, organized and existing, or which may hereafter be organized or authorized to do business under the laws of this state, or any lessee or trustee thereof, or any person or persons owning, conducting, managing, operating or controlling any plant or equipment within this state used wholly or in part in the business of transmitting messages by telephone or telegraph, producing or furnishing heat, artificial gas, light, water or mechanical power to the public, directly or indirectly, and any railroad, interurban railroad or other common carrier, or any corporation, association, or individual exercising or claiming the right to carry or transport natural gas for public use, directly or indirectly, or petroleum oil by or through pipe line or lines or engaged in the business of piping or transporting natural gas for public use, directly or indirectly, or engaged in the business of purchasing natural gas for distribution may issue stocks, bonds, notes or other evidences of indebtedness payable at periods of more than 12 months after the date thereof, when necessary for the acquisition of property, the construction, completion, extension or improvement of facilities or for the improvement or maintenance of service or for the discharge or lawful refunding of obligations and may issue stock to represent accumulated earnings invested in capital assets and not previously capitalized: Provided, and not otherwise, That there shall have been secured from the Michigan railroad commission an order authorizing such issue and the amount thereof, and stating that in the opinion of the commission the use of the capital or property to be acquired to be secured by the issue of such stock, bonds, notes or other evidences of indebtedness, is reasonably required for the purposes of such person, corporation or association, or that the issue of such stock fairly represents accumulated and undistributed earnings invested in capital assets and not previously capitalized. Any such person, corporation or association desiring authority to issue stocks, bonds, notes or other evidences of indebtedness shall make written application therefor to the said commission in such form as the commission may require. After receiving such application, said commission may, for the purpose of enabling it to determine whether it should grant such authority, make such inquiry or investigation, hold such hearings and examine such witnesses, books, papers, documents or contracts as it may deem of importance in enabling it to reach a determination. If the applicant shall fail, neglect or refuse to furnish any or all of the information required by said commission, or if the said commission shall so direct, an appraisal of the property of said applicant shall be made by a dis-

interested person or persons to be appointed by said commission and whose compensation shall be fixed by said commission, the entire expense of making such appraisal to be borne by said applicant. After said appraisal is made and filed with said commission and before any action is taken by said commission upon said application, the expenses of said appraisal as determined by said commission shall be paid by said applicant to said commission, which shall deposit the same in the treasury of the state to be credited to the general fund, taking the receipt of the treasurer therefor and filing the same in its office with said application. If the applicant shall refuse or neglect to pay the expense of said appraisal, the commission shall dismiss such application and said commission may bring an action against said applicant in any court of competent jurisdiction in this state for the recovery of the expense of said appraisal. The expense of said appraisal shall be paid by the state treasurer upon the warrant of the auditor general to the person certified by the commission to be entitled thereto. If from the application filed and such other information obtained from the investigation herein authorized, the said commission shall be satisfied that the funds derived from such issue of stocks, bonds, or notes are to be applied to lawful purposes and that such issue and amount is essential to the successful carrying out of such purposes, or that the issue of such stock fairly represents accumulated and undistributed earnings invested in capital assets and not previously capitalized, then said commission shall grant authority to make the issue applied for, and in granting such authority, the said commission may impose as a condition of the grant such reasonable terms and conditions as to the commission may seem proper: Provided, That any such person, corporation or association may issue notes for lawful purposes, payable at periods of not more than 24 months, without authority from said commission; but no such notes shall in whole or in part, directly or indirectly, be refunded by any issue of stock or bonds or by any evidence of indebtedness running for more than 12 months without the consent of said commission: Provided further, That the provisions of this act shall apply to all stock, shares, bonds or notes issued to or taken by the incorporators or their agents, assigns or trustees of any such corporation or association in the first instance, and shall also apply to all stock, bonds or notes issued to or taken by the stockholders of such corporation or association, their agents, assigns or trustees, from time to time thereafter. The supreme court upon petition of any person aggrieved may review by certiorari any final order of determination of the commission. The issuance of the writ shall not, however, unless specifically ordered by the court, operate as a stay of proceedings.

After such investigation and hearing, the commission within lawful limits may by order fix the price of electricity to be charged by such person, firm or corporation, and the price so fixed, of which such person, firm or corporation shall have notice, shall be the price to be charged until the commission shall again fix the price to be charged therefor. Said commission may also by order establish such rules and conditions of service as shall be just and reasonable. In determining the proper price, the commission shall consider and give due weight to all lawful elements properly to be considered to enable it to determine the just and reasonable price to be fixed for supplying electricity, including cost, reasonable return on the fair value of all property used in the service, depreciation, obsolescence, risks of business, value of service to the consumer, the connected load, the hours of the day when used and the quantity used each month: Provided, however, That the commission shall in no case have power to change or alter the price fixed in or regulated by or under any franchise heretofore or hereafter granted by any city, village or township: Provided further, Where identical or substantially identical rates prevail or are established, or shall hereafter be established in 2 or more contiguous municipalities or communities served or whose inhabitants are served by the same person, firm or corporation, the territory so served and to be served shall be treated as a unit for the purpose of fixing rates and no such rate or rates shall be changed with respect to 1 or more of such municipalities or communities so as to establish any difference of rate within the territory so served, unless and until it shall be shown that the continuance of such identical or substantially identical rate or rates will work substantial hardship to some municipality or person, firm or corporation affected thereby. The prices, rates and charges of every electric utility shall be just and reasonable and no consumer shall at any time be charged more

or less than other consumers are charged for like contemporaneous service rendered under similar circumstances and conditions, and if any electric utility doing business within this state shall directly or indirectly by any special rate, rebate, draw-back or other device, charge, demand, collect or receive from any person or persons, copartnership or corporation, a greater or less compensation for any service rendered, furnished or performed, than it charges, demands, collects or receives from any other person, or persons, copartnership or corporation, for rendering, furnishing or performing for him or them a like contemporaneous service, such electric utility shall be guilty of unjust discrimination, which is hereby prohibited and declared to be unlawful. It shall further be unlawful for any person, copartnership or corporation, directly or indirectly to ask, demand or accept any rebate, draw-back or other device whereby he or they shall obtain electric service for any less rate than that charged others in like circumstances. The provisions of Act No. 419 of the Public Acts of Michigan for the year 1919, shall, so far as applicable, govern the hearings before the said commission herein provided for, and the commission shall have power and authority to make, adopt and enforce rules and regulations for the conduct of its business and the proper discharge of its functions hereunder, and all persons dealing with the commission or interested in any matter or proceeding pending before it shall be bound by such rules and regulations. The provisions of Act No. 300 of the Public Acts of 1909, as amended and now in force, shall apply as to appeals from any order of the commission to the circuit court and from the circuit court to the supreme court.

AN ACT to define and regulate common carriers and the receiving, transportation and delivery of persons and property, prevent the imposition of unreasonable rates, prevent unjust discrimination, insure adequate service, create the Michigan railroad commission, define the powers and duties thereof, and to prescribe penalties for violations hereof.

The People of the State of Michigan enact:

Sec. 1.

HISTORY: CL 1915, 8109.

This section dealt with the creation, appointment and organization of the Michigan railroad commission, which was abolished and its rights, powers and duties transferred to the Michigan public utilities commission by Sec. 3 of Act 419 of 1919, being Compilers' § 460.53. The public utilities commission in turn has been abolished and superseded by the public service commission, see Compilers' § 460.4.

FORMER ACTS: Act 79 of 1873, being CL 1897, 5206-5234, as Am. by Act 232 of 1907; Act 64 of 1875, being CL 1897, 5241-5242. Sec. 13 of Act 44 of 1899; Act 189 of 1903, as Am. by Act 307 of 1905; and Act 312 of 1907.

REPEAL: This act not repealed or superseded by Act 56 of 1919, see Sec. 5, being Compilers' § 469.245.

462.2 Railroad regulation; commissioners.

Sec. 2. (a) Said commissioners shall have the following qualifications: One shall be an attorney having knowledge of and experience in law relating to common carriers; the others shall have knowledge of traffic and transportation matters. Each of such commissioners shall devote to the duties of his office all the time necessary to insure the prompt and complete performance of all official duties, and said commission shall, so far as possible, arrange so that at all times during business hours, at least some 1 member shall be in attendance at the principal office of the commission every business day in the year;

Removal.

(b) The governor may at any time remove any commissioner for any neglect of duty or malfeasance in office. Before such removal, he shall give such commissioner a copy of the charges against him, and shall fix a time when he can be heard in his own defense, which shall not be less than 10 days thereafter, and said hearing shall be open to the public. If he shall be removed, the governor shall file in the office of the secretary

of state a complete statement of the charges made against such commissioner and his finding thereon, with a record of the proceedings, it being herein provided and declared that such discretionary power in the governor to make such removal is a sound and reasonable discretion to be exercised for the good of the state, and not arbitrarily;

Pecuniary interest.

(c) No person so appointed shall be pecuniarily interested in any railroad or in the business of transporting persons or property in this state or elsewhere, and if any such commissioner shall voluntarily become so interested, his office shall ipso facto, become vacant; and if he shall become so interested otherwise than voluntarily, he shall, within a reasonable time, divest himself of such interests; failing so to do, his office shall become vacant, and the governor shall proceed as provided for in section 2(b) of this act;

Oath.

(d) Before entering upon the duties of his office, each of said commissioners shall take and subscribe the constitutional oath of office;

Salary.

(e) Each of said commissioners shall receive an annual salary of 3,000 dollars payable in the same manner as salaries of other state officers are paid;

Organization; quorum; hearings; adjournment; rehearing.

(f) The commissioners appointed under this act shall forthwith, after their appointment and qualification, meet at the city of Lansing and organize by electing 1 of their members chairman, who shall serve until the fifteenth day of January, 1911. On the fifteenth day of January in each odd numbered year the commissioners shall meet at the offices of the commission and elect a chairman, who shall serve for 2 years and until his successor is elected. A majority of said commissioners shall constitute a quorum to transact business, and any vacancy shall not impair the right of the remaining commissioners to exercise all of the powers of the commission so long as the majority remains. Any investigation, inquiry or hearing which the commission has power to undertake or to hold may be undertaken or held by or before any commissioner when so directed by the commission or its chairman. All such investigations, inquiries or hearings of a commissioner shall be and be deemed to be the investigations, inquiries and hearings of the commission, and every decision and order made by a commissioner, when approved and confirmed by the commission and ordered filed in its office, shall be and be deemed to be the decision and order of the commission: Provided, That any interested party shall be entitled to a re-hearing before the full commission on request served upon the commission within 5 days after service of such order upon such party. In the absence of a quorum of the commission at the time appointed for any hearing before such commission, such hearing may be continued to a later date by a single member of the commission present or, in the absence of any member, by the secretary;

Secretary and employees, salary; inspector, powers and duties.

(g) Said commission may appoint a secretary at a salary of not more than 2,000 dollars per annum and a chief clerk at a salary of not more than 1,500 dollars per annum, and employ not more than 5 clerks, and such inspectors, examiners and experts as may be necessary to perform what may be required of them, and shall fix their compensation. It shall be the duty of any such inspector, on the order of the commission, and he shall have the right to inspect all equipment, cars, power houses, trolley lines, tracks and property of every common carrier as defined in this act. Each such inspector shall likewise have the right to inspect freight in cars or warehouses of such common carriers, and all waybills, bills of lading and shipping receipts of such transportation companies, so that they may determine whether the classification and rating of such

freight is in conformity with the published tariffs and classifications of such transportation companies. Said inspectors shall be employed at a fixed compensation;

Secretary; duties, oath.

(h) The secretary shall take and subscribe to an oath similar to that of the commissioners, and shall keep full and correct records of all transactions and proceedings of the commission, and shall perform such other duties as may be required by the commission. Any person ineligible to the office of a commissioner shall be ineligible to the office of secretary. He shall devote his entire time to his office;

Chief inspecting engineer; duties, salary.

(i) The said commission may appoint a chief inspecting engineer at a salary of not to exceed 2,000 dollars per annum, to be fixed by such commission, whose duty it shall be under the instructions of the commission, to make such inspections and reports as may be ordered by the commission as regards the public safety, health and convenience, and which the commission may deem essential to full and thorough information as to physical condition of the properties of the various common carriers of the state and the proper enforcement of the police regulations enacted for the control and management of the same. Such engineer shall have such general knowledge of the requirements of railroad operation, signal appliances and safety devices as shall fit him to perform the duties imposed upon him by the provisions of this act;

Michigan railroad commission; name, seal.

(j) The commission shall be known collectively as "Michigan railroad commission," and in that name may sue and be sued. Offices, equipment; meetings; expenses; free transportation.

(k) The commission shall have its offices at Lansing, and shall be provided suitable offices, necessary office furniture, supplies, stationery, books, periodicals, maps, printing, and all its necessary expenses shall be audited and paid as other necessary state expenses are audited and paid. The commission may hold meetings at other places than its said offices when the convenience of the parties so requires. The commissioners, secretary, clerks and inspectors and such experts as may be employed, shall be entitled to receive from the state their actual and necessary expenses while traveling on the business of the commission, such expenditures to be sworn to by the person who incurred the expense and to be approved by the chairman of the commission. Members of the commission, when traveling on official business of the commission pertaining to railroads, and employes of the commission when traveling on official business of the commission pertaining to railroads and by the direction of the commission, shall be carried free in performance of their duties, on all railroads within this state, upon all trains and cars, and upon any parts of such trains or cars: Provided, That any such person who shall suffer himself to be carried free on any train or car by any such railroad company, when not traveling on official business of the commission and not by direction of the commission, shall be deemed guilty of a misdemeanor, and on conviction shall be punished by a fine of not less than 100 dollars nor more than 500 dollars or by imprisonment not more than 90 days, or by both such fine and imprisonment in the discretion of the court;

Rules.

(l) The commission shall have the power to adopt and publish rules to govern its proceedings and to regulate the mode and manner of all investigations and hearings of common carriers and other parties before it, and all hearings shall be open to the public;

Sec. 6. (a) Any railroad, subject to the provisions of this act, upon application of any shipper tendering traffic for transportation, shall construct, maintain and operate upon reasonable terms a switch connection with any private side track, when such connection is reasonably practicable and can be put in with safety and will furnish sufficient business to justify the construction and maintenance of same, and shall furnish cars and transport to the best of its ability any traffic tendered to, over or from such private side track, without discrimination in favor of or against any such shipper: Provided, This shall not be construed to compel a railroad to remove from or deliver on a private side track traffic tendered in less than car lots: Provided further, That shipments of live stock, perishable property and explosives shall have precedence over all other classes of merchandise. If any railroad shall fail to install and operate any such switch or connection as aforesaid, on application therefor in writing by any shipper, any shipper may make complaint to the commission, as provided by section 22 of this act, and the commission shall make investigation of the same, and it shall determine as to the safety, practicability and justification thereof, and shall fix a reasonable compensation therefor, and the commission shall make an order as provided in section 22 of this act, directing the railroads to comply with the provisions of this section in accordance with such order, and such order shall be enforced as hereinafter provided for the enforcement of all other orders by the commission, other than orders for the payment of money. The commission shall have power, and is hereby authorized, to fix and establish reasonable switching rules and regulations, and establish reasonable limits for said

switching and reasonable rates therefor, including rules and regulations regarding absorption of switching rates;

Spur track, payment of legitimate cost; disagreement.

(b) Every railroad shall provide a reasonable, adequate and suitable spur track to and to and upon the grounds of any mill, elevator, storehouse, warehouse, dock, wharf, pier, manufacturing establishment, lumber yard, coal dock or other industry or enterprise, wherever such spur track does not necessarily exceed 2 miles in length and is practically indispensable to the successful operation of any such industry or enterprise. and shall connect such spur track with its main track and operate the same in connection therewith: Provided, That such railroad may require the person or persons, firm, corporation or association primarily to be served thereby, to pay the legitimate cost and expense of acquiring by condemnation or purchase where necessary the rights of way for such spur track, and of constructing the same, in which case the total estimated cost thereof shall be deposited with the railroad before the railroad shall be required to incur any expense whatever therefor. No railroad shall, however, be required to provide a spur track where it is unusually unsafe and dangerous: Provided, That in the event of the failure of said shipper and the said railroad to agree, the necessity for, reasonableness of, and practical safety of such spur track and connection and the operation thereof shall be decided by the said public utilities commission upon complaint and hearing as provided in section 22 of this act.

NOTE: Sec. 22, above referred to, is Compilers' § 462.22.

462.7 Interchange of traffic; preferred freight; routing by shippers or initial carrier.

Sec. 7. (a) All railroads subject to the provisions of this act shall afford all reasonable and proper facilities by the establishment of switch connections between one another and the establishment of depots and otherwise for the interchange of traffic between their respective lines and for the receiving, forwarding and delivering of passengers and property to and from their several lines and those connecting therewith, and shall transfer and deliver without unreasonable delay or discrimination any freight or cars or passengers destined to any point on its own line or on any connecting line, and shall not discriminate in their rates and charges between such connecting lines: Provided. Precedence may be given to live stock and perishable property. Nothing in this act shall be construed as requiring any railroad to give the use of its tracks or terminal facilities to another railroad engaged in like business, except that carload traffic shall be received and transported from any junction point or transfer point or intersection with another railroad in any city or town, destined to team tracks or other sidings in the same city or town as hereinafter provided. Any person or any officer or agent of any corporation or company who shall deliver property for transportation to any common carrier subject to the provisions of this act shall have the right and privilege of routing such shipments and of prescribing and directing over what connecting line property so shipped shall be transported, and it shall be the duty of the initial carrier to observe the direction of such person or such officer or agent of any corporation or company, and to cause such freight to be transported over such connecting line as may be directed and required by such shipper. When freight is shipped in intrastate commerce and any person or officer or agent of any corporation or company who shall deliver property for transportation does not prescribe over what connecting line such property shall be transported, it shall be the duty of the initial carrier to so route the freight as to give the property the benefit of the lowest rate published between points of origin and destination;

Same; steam and interurban railroads.

(b) Where it is practicable and the same may be accomplished without endangering the equipment, tracks or appliances of either party, the commission may, upon application, require steam railroads and interurban and suburban railroads to interchange cars, carload shipments, less than carload shipments and passenger traffic, and for that purpose may require the construction of physical connections upon such terms as it may determine and such suburban and interurban railroads may be used for handling of freight in carload lots in steam railroad freight cars between shippers or consignees and the steam railroads, in the same manner and under the same general conditions, except as to motive power, as belt line railroads and terminal railroads are now or may hereafter be used for like purposes;

Drawing cars and merchandise of connecting lines; disagreement.

(c) Every corporation owning a railroad in use shall, at reasonable times and for a reasonable compensation, draw over the same the merchandise and cars of any other corporation or individual having connecting tracks: Provided, Such cars are of the proper gauge, are in good running order and equipped as required by law and otherwise safe for transportation and properly loaded: Provided further, If the corporations cannot agree upon the times at which the cars shall be drawn or the compensation to be paid, the said commission shall, upon petition of either party and notice to the other, after hearing the parties interested, determine the rate of compensation and fix such other periods, having reference to the convenience and interests of the corporation or corporations and the public to be accommodated thereby and the award of the commission shall be binding upon the respective corporations interested therein until the same shall have been revised;

Local traffic; private siding.

(d) Every common carrier operating within this state shall receive and transport at reasonable rates any and all carload traffic offered for transportation under the usual conditions locally consigned between points in the same city or town and shall receive and transport at reasonable rates from any junction point or transfer point or intersection with another railroad in such city or town any and all such carload freight destined to team tracks or other sidings on any line operated by the delivering carrier, and shall deliver such car or cars upon such team tracks or sidings in the city or town where such car or cars are received from such connecting line when required so to do: Provided, That when delivery is requested which will involve the use of a private siding not owned or controlled by consignee, said consignee shall file with both receiving and delivering carriers written permission signed by the owner or lessee of such private siding authorizing the use of same. When the particular delivery desired cannot be accomplished owing to the congestion of cars upon such siding or team tracks, it shall be the duty of the delivering carrier to notify consignee of such conditions and it shall be the duty of consignee upon receipt of such notice to advise upon what other siding delivery will be accepted or whether or not it is desired that such car or cars shall be held waiting the opportunity for delivery upon the siding originally designated as the destination;

Intrastate traffic; bill of lading, liability, recovery from other carrier.

(e) That any common carrier, railroad or transportation company receiving property for transportation from a point in the state of Michigan to another point within the state of Michigan, shall issue a receipt or bill of lading therefor, and shall be liable to the lawful holder thereof for any loss, damage or injury to such property caused by it or by any common carrier, railroad or transportation company to which said property may be delivered or over whose line or lines such property may pass, and no contract, receipt, rule or regulation, shall exempt such common carrier, railroad or transporta-

tion company from the liability hereby imposed: Provided, That nothing in this section shall deprive any holder of such receipt or bill of lading of any remedy or right of action which he has under existing law: Provided further, That the property so received for transportation shall move entirely within the boundaries of the state of Michigan between the points of shipment and its destination: And provided further, That the common carrier, railroad or transportation company issuing such receipt or bill of lading shall be entitled to recover from the common carrier, railroad or transportation company, on whose line or lines the loss, damage or injury shall have been sustained, the amount of such loss, damage or injury as it may be required to pay to the owners of such property as may be evidenced by any receipt, judgment or transcript thereof.

462.8 Railroads to furnish cars; shortage, preference, regulation by commission; demurrage.

Sec. 8. Every railroad shall, when within its power so to do, and upon reasonable notice, furnish suitable cars to any and all persons who may apply therefor, for the transportation of any and all kinds of freight in carload lots. Every common carrier shall have sufficient cars and motive power to meet all requirements for the transportation of passengers and property which may reasonably be anticipated. In case of insufficiency of cars at any time to meet all requirements, such cars as are available shall be distributed among the several applicants therefor without discrimination between shippers or between points of shipment, whether competitive or non-competitive: Provided, Preference may be given to shipments of live-stock and perishable property. The commission shall have power to make and enforce, and shall make and enforce reasonable regulations for the furnishing and distribution of freight cars to shippers and switching the same, and for the loading and unloading thereof, and for the weighing of the cars and the freight offered for shipment over any line of railroad and shall fix a reasonable per diem demurrage to be paid for the detention of cars by shipper or consignee (which said car service and demurrage rules and regulations shall be applicable to all traffic whether the same begin or end within the state of Michigan), and for the failure or delay of the railroad in the furnishing of such cars and for the failure of the railroad to move the cars the number of miles per day as ordered by the commission.

462.9 Charges for longer and shorter hauls; governing rate.

Sec. 9. It shall be unlawful for any common carrier subject to the provisions of this act to charge or receive any greater fare or rate for the transportation of passengers or like kinds of property under substantially similar circumstances and conditions for a shorter than a longer distance over the same line, in the same direction, the shorter being included within the longer distance, but this act shall not be construed as authorizing any common carrier within the terms of this act to charge and receive as great compensation for a shorter distance as for a longer distance: Provided, however, That upon application to the commission appointed under the provisions of this act such common carrier may, in special cases after investigation by the commission, be authorized to charge less for longer than for shorter distances for the transportation of passengers or property, and the commission may from time to time prescribe the extent to which a designated common carrier may be relieved from the operation of this section of this act. When there are 2 or more rates in effect between the same points, via the same route, the lowest published rate shall be the only legal rate applicable in this state. In the event a published through rate exceed any combination of 2 or more local

rates between the same points within the state, the combination forming the lowest rate shall govern.

SPECIAL CONTRACT RATES: See Sec. 11 of this act.

462.10 Schedule of rates; filing with commission, public inspection.

Sec. 10. (a) Every common carrier subject to the provisions of this act shall file with the commission created by this act and print and keep open to public inspection in each of its depots and offices, schedules showing all rates, fares and charges for transportation, both of passengers and property, between different points on its own route, and between points on its own route and on the route of any other carrier, when a through route and joint rate have been established. If no joint rate over the through route has been established, the several carriers in such through route shall file, print and keep open to public inspection as aforesaid the separately established rates, fares and charges applied to the through transportation. The schedules printed as aforesaid by any common carrier, shall plainly state the places between which property and passengers will be carried and shall contain the classification of freight in force and shall also state separately all terminal charges, storage charges, icing charges and all other charges which the commission may require, all privileges or facilities granted or allowed and any rules or regulations which in any wise change, affect or determine any part of or the aggregate of such aforesaid rates, fares and charges, or the value of the service rendered to the passengers, shipper or consignee: Provided, That where local switching tariffs are in effect at a competitive point, it shall be sufficient if the schedule state that the terminal charges shall be subject to the rules of such local switching tariffs. Such schedules shall be printed plainly in large type, and copies for the use of the public shall be kept on file for public inspection in every depot, station or office of such carrier where passengers or freight respectively are received for transportation or where tickets are sold, in such form that they will be accessible to the public and can conveniently be inspected. The provisions of this section shall apply to all traffic and transportation and facilities defined in this act;

Change of rates; investigation by commission.

(b) No change shall be made in the schedule of rates, fares or charges or joint rates, fares or charges which have been filed and published by common carriers in compliance with the requirements of this section, except after 30 days' notice to the commission and to the public published as aforesaid, which shall plainly state the changes proposed to be made in the schedule of rates, fares or charges or joint rates, fares or charges then in force and the time when such changed rates, fares or charges or joint rates, fares or charges will go into effect, and no such rates, fares or charges or joint rates, fares or charges shall be discontinued, except after giving such notice as is required for changing rates, fares or charges or joint rates, fares or charges, and the proposed changes in such rates, fares or charges or joint rates, fares or charges shall be shown by printing and filing new tariffs thereto or by showing such changes or discontinuance by issuing and filing of supplements in the regular manner now provided and keeping same open to public inspection: Provided, That the commission may, in its discretion and for good cause shown, allow changes upon less time than the notice herein specified, or modify the requirements in this section in respect to publishing, posting and filing of tariffs, either in particular instances or by general order applicable to special or peculiar circumstances or conditions: Provided further, That upon the filing with the commission by a common carrier of any tariff or supplement showing any change in rates, fares or charges or joint rates, fares or charges or a discontinuance of any rate or rates, fares or charges or joint rates, fares or charges, it shall be lawful for the said commission and it is hereby authorized, acting upon its own initiative or upon complaint, to postpone the date when such new rate or rates or joint rates, fares

or charges or discontinuance of rate or rates or joint rates, fares or charges, shall become effective to such time not to exceed in all 45 days as shall give the said commission opportunity to investigate the reasonableness of such proposed rate or rates or discontinuance of rate or rates, and it shall thereupon be lawful for said commission and it is hereby authorized to proceed with all convenient speed with an investigation upon at least 5 days' notice to said common carrier either upon its own initiative or upon complaint as to the reasonableness of said rate or rates or the discontinuance of said rate or rates, follow the procedure as near as may be, and make its order therein in the manner hereinafter provided in section 22 of this act, such investigation to take precedence of all matters of a different nature pending before the commission;

Joint tariff; names of carriers, evidence of concurrence.

(c) The names of the several carriers which are parties to any joint tariff shall be specified therein and each of the parties thereto, other than the one filing the same, shall file with the commission such evidence of concurrence therein or acceptance thereof as may be required or approved by the commission, and where evidence of concurrence or acceptance is filed it shall not be necessary for the carriers filing the same to also file copies of the tariffs in which they are named as parties;

Form of schedules.

(d) The commission may determine and prescribe the form in which the schedules required by this section to be kept open to the public inspection shall be prepared and arranged and may change the form from time to time as may be found expedient;

Same; conformance with I.C.C. forms.

(e) Such schedules shall, so far as is practicable, conform to the forms prescribed by the interstate commerce commission;

Filing and publication of rates a prerequisite to transportation; deviation from rates; rebates.

(f) No carrier, unless otherwise provided by this act, shall engage or participate in the transportation of passengers or property as defined in this act, unless the rates, fares and charges upon which the same are transported by said carrier have been filed and published in accordance with the provisions of this act, nor shall any carrier charge or demand or collect or receive a greater or less or different compensation for such transportation of passengers or property or for any service in connection therewith between the points named in such fares and charges which are specified in the tariff filed and in effect at the time; nor shall any carrier refund or remit in any manner or by any device any portion of the rates, fares and charges so specified, nor extend to any shipper or person any privilege or facilities in the transportation of persons or property, except such as are specified in such tariff;

Rate complaint; time, hearing, order; court action.

(g) Within 2 years after the delivery of any shipment of freight at destination, and not after, any person aggrieved may complain to the commission that the charge exacted for the transportation of such freight between points in Michigan is irregular or exorbitant, and thereupon the commission shall have power to investigate such complaint, and to hear the same and to decide upon the merits thereof, in the manner provided by section 22 of this act. If, upon such hearing, the commission shall decide that the rate or charge exacted is irregular or exorbitant it shall find what, in its judgment, would have been a reasonable rate or charge for the service complained of. If the rate or charge so found shall be less than the charge exacted and the commission shall determine that any party complainant is entitled to an award of damages under the provisions of this act for a violation thereof, the commission shall make an order authorizing and directing the carrier to pay the complainant the sum to which he is entitled on or before a day named. In case of the refusal of the carrier to make such refund, the

party aggrieved thereby may maintain an action in the courts of this state to recover the amount of such excessive charge as found by said commission, and in the trial thereof the findings of the commission shall be prima facie evidence of the truth of the facts found by it, and no carrier shall be permitted to avail itself in the defense of such action that the shipment involved was in fact made on the published tariff rate in force at the time such shipment was made, but no carrier making a refund upon the order of the commission or pursuant to a judgment of court as herein provided, shall be liable for any penalty or forfeiture, or subject to any prosecution under the laws of this state on account of making such refund;

(h) In time of war or threatened war preference and precedence shall, upon the demand of the governor of the state, be given over all other traffic to the transportation of troops and material of war, and carriers shall adopt every means within their control to facilitate and expedite the military traffic;

Schedules of rates, filing.

(i) Every common carrier within this state shall within 90 days, unless further time be granted by the commission, file in the office of the commission copies of all schedules of rates, including joint rates in force on its line or lines between points within this state on the date this act takes effect, not previously filed by such carrier with the Michigan railroad commission.

All railroads shall keep and maintain adequate and suitable freight depots, buildings, switches and sidetracks for the receiving, handling and delivering of freight transported or to be transported by such railroads. Upon the filing of complaint with the commission and hearing thereon as provided in section 22, the commission is authorized to make full inquiry in the matter of station facilities, train service, name of station, etc., at the station in question, and make such orders in regard to the building of depots, interurban railway shelters, name of station, stopping of trains or cars, necessary sidings and other track accommodations as it shall deem for the public interest and shall be just and reasonable. No order shall be made by the commission with reference to the name of a station until the change so ordered shall have been asked for by a majority vote of the citizens of the township, incorporated village or city in which such station is located.

(b) Where 2 or more railroads connect they shall, if so ordered by the commission after hearing, provide at the junction point a joint depot and suitable accommodations for passengers and merchandise. If the railroads cannot agree in providing such accommodations and for the maintenance thereof, the commission may determine the character of the accommodations to be provided and apportion the cost thereof and the expense of the maintenance of the same between the several roads.

Discontinuance of passenger service; approval of commission; procedure.

(c) Passenger service shall not be discontinued in this state without the permission of the commission and unless the railroad desiring to discontinue such service shall first file a petition with the commission, and hearing is held thereon as provided in section 22. (a) Upon complaint in writing of any person, firm or corporation or association, or of any mercantile, agricultural or manufacturing society, or of any body politic or municipal organization, that any of the rates, fares, charges or classifications, or any joint rate or rates are in any respect unreasonable or unjustly discriminatory, or that any regulation or practice whatsoever affecting the transportation of persons or property or any service in connection therewith, is in any respect unreasonable or unjustly discriminatory, or that any service is inadequate, the commission shall notify the common carrier complained of that complaint has been made and shall furnish a copy of the said complaint with said notice, and 20 days after such notice has been given the commission may proceed to investigate the same as hereinafter provided. Before proceeding to make the investigation, the commission shall give the said common carrier and the complainants at least 10 days' notice of the time and place when and where such matters will be considered and determined, and said parties shall be entitled to be heard and shall have process to enforce the attendance of witnesses. Such hearings may be continued from time to time in the discretion of the commission. If, upon such investigation, the rate or rates, joint rate or rates, fares, charges or classifications, regulation, practice or service complained of shall be found to be unreasonable, inadequate or unjustly discriminatory, the commission shall have power to and it shall determine and by order fix and order substituted therefor, such rate or rates, joint rate or rates, fares and charges, as is or are just and reasonable, and which shall be the maximum to be charged in the future, and such classifications, regulation, practice or service as is or are just, reasonable and adequate, and which shall be imposed and followed or service rendered in future in lieu of that found to be unreasonable, inadequate or unjustly discriminatory, and in either case the commission shall make an order that the common carrier cease and desist from such violation, and shall conform to the regulation and practice so prescribed, and it shall cause a certified copy of each such order to be delivered to an officer or station agent of the common carrier affected thereby, which order shall, of its own force, take effect and become operative 20 days after the service thereof. Certified copies of all other orders of the commission shall be delivered to the common carriers thereby affected in like manner, and the same shall take effect within such times thereafter as the commission shall prescribe;

Before making such investigation, it shall present to the common carrier a statement in writing, setting forth the rate or charge to be investigated. Thereafter, on 10 days' notice to the common carrier of the time and place of such investigation, the commission may proceed to investigate such rate or charge in the same manner and make like orders in respect thereto as if such investigation had been made upon complaint;

The commission shall file its answer, and on leave of court any interested party may file an answer to said complaint. Upon the filing of the answer of the commission said action shall be at issue and stand ready for hearing upon 10 days' notice by either party. All suits brought under this section shall have precedence over any civil cause of a different nature pending in such court, and the said circuit court shall always be deemed open for the hearing thereof, and the same shall proceed, be tried and determined as other chancery suits. Any party to such suit may introduce original evidence in addition to the transcript of evidence offered to said commission, and the said circuit court in chancery is hereby given jurisdiction of such suits and empowered to affirm, vacate or set aside the order of the commission in whole or in part, and to make such other order or decree as the court shall decide to be in accordance with the facts and the law;

Upon receipt of such evidence the commission shall consider the same, and may alter, modify, amend or rescind its order relating to such rate or rates, fares, charges, classifications, joint rate or rates, regulations, practice or service complained of in said action, and shall report its action thereon to said court within 10 days from the receipt of such evidence. If the commission shall rescind its order complained of, the action shall be dismissed; if it shall alter, modify or amend the same, such altered, modified or amended order shall take the place of the original order complained of, and judgment shall be rendered thereon as though made by the

commission in the first instance. If the original order shall not be rescinded or changed by the commission, judgment shall be rendered upon such original order;

Appeal to supreme court.

(d) Either party to said action, within 60 days after service of a copy of the order or judgment of the court, may appeal to the supreme court, which appeal shall be governed by the statutes governing chancery appeals. 464.20 Condemnation proceedings; procedure, commissioners, jury.

Sec. 20. On presenting such petition to said court or the judge thereof at chambers with proof of service of a copy thereof, and due notice as aforesaid, all persons whose estate or interest are to be affected by the proceedings, may show cause against the prayer of the petition, and may disprove any of the facts alleged therein; and said court or judge shall hear the proofs and allegations of the parties; and if no sufficient cause is shown against granting the prayer of the petition, said court or judge shall make an order appointing 3 disinterested and competent freeholders as commissioners to ascertain and determine the necessity for taking such lands, franchises or other property, and to appraise and determine damages or compensation to be allowed to the owners and persons interested in the real estate or property proposed to be taken in such county for the purposes of the company; and such court or the judge thereof, shall fix the time and place for the first meeting of such commissioners: Provided, That any person or persons, or company, whose estate or interest is to be affected by the proceedings may demand and have from such court, at the time of hearing of said petition, a jury of 12 freeholders of said county to ascertain and determine the necessity for taking such lands, franchises, or other property, and to appraise and determine the damages or compensation to be allowed therefor. Thereupon the court shall direct the sheriff or any constable of the county, to make a list, in writing, of 24 inhabitants of the county qualified to serve as jurors in the courts of record in this state. Such sheriff or officer shall, before he proceeds to make such list, be sworn by the court or judge to select such persons according to his best judgment, and without favor or partiality to either party. From such list the person or persons demanding such jury may alternately strike off 6 names, and the railroad company 6 names, and in case of either of them refusing or neglecting to do so, the judge shall strike off from said list for the party so refusing or neglecting so as to leave only 12 names thereon. Such court, or the judge thereof, shall issue a venire in the usual form, inserting therein the 12 names so remaining on said list, and requiring such jury to meet at the time and place appointed therefor by the court, which said venire may be served by the sheriff, any constable, or other proper officer of the county, as in other cases; and if at the time and place appointed by said court or judge for said jury to meet, any of the persons named as jurors do not attend, or if any named in the venire, or chosen as talesmen, shall be rejected in a challenge for cause (which right of challenge is hereby granted), it shall be competent for said court, or the judge thereof, to order the said sheriff or other officer to summon immediately as many competent persons as may be necessary, with the persons in attendance as jurors, to furnish a panel of 12 jurors; and if no jury be demanded on the part of any person mentioned in said petition, his or her right to the same shall be deemed to have been waived. In case any parcel of land is owned or occupied by parties having different interests or estates therein or in any part thereof, they may be united as respondents in respect to the same in the petition, and thereafter the proceedings touching the same shall be carried on as 1 suit. The demand of any one of the respondents for a jury shall be deemed to be a demand for all, and if they shall fail or neglect to unite in striking 6 names from the jury list, the judge shall strike off 6 names for them; and in such cases the jury shall not only determine the entire damages and compensation to be paid for the whole property taken, but shall, in their

464.21 Condemnation proceedings; commissioners; jury; discontinuance, costs.

Sec. 21. The commissioners shall take and subscribe the oath prescribed by article 18 of the constitution. Any of them may issue subpoenas, administer oaths to witnesses, and a majority of them may adjourn the proceedings before them from time to time in their discretion. Whenever they meet, except by appointment of the court or judge, or by previous adjournment, they shall cause reasonable notice of such meeting to be given to the parties who are to be affected by their proceedings, or the attorneys or agents of such parties. They may view the premises described in the petition, and shall hear the proof and allegations of the parties, and shall reduce the testimony, if any is taken by them, to writing, if requested to do so by either party, and after the testimony is closed in such case, and without any unreasonable delays, and before proceeding to the examination of any other claim, all being present and acting, shall ascertain and determine the necessity of taking and using any such real estate or property for the purposes described; and if they deem the same necessary to be taken, they shall ascertain and determine the damages or compensation which ought justly to be made by the company therefor to the party or parties owning or interested in the real estate or property appraised by them. They shall also determine and certify what sum ought to be paid to the general or special guardian of an infant, idiot, or person of unsound mind, or to said court to be held for an unknown party in interest not personally served with notice of the proceedings and who has not appeared, for damages and cost or expenses and counsel fees. They shall make a report to said court, or judge signed by them, of the proceedings before them, if any, which may be filed with the clerk of the court, either in vacation or term time, or the probate court as the case may be. Said commissioners shall be entitled to 2 dollars a day for each day they are engaged in the performance of their duties, to be paid in the first instance by the company. In case a jury shall have been demanded and ordered by the court, pursuant to section 21 of this article, the said jury shall proceed to ascertain and determine the necessity of taking and using any such real estate or property, and the damage or compensation to be paid by the company therefor, in the same manner and with like effect as is provided in this section, in the case of commissioners, and as is further provided in said section 21; but they shall all be present and act together during the proceedings, and before acting shall take and subscribe an oath that they will justly and impartially ascertain and determine the necessity of taking and using any such real estate or property for the purposes proposed; and if they deem the same necessary to be taken, will ascertain and determine the damages or compensation which ought justly to be made by said company to the owners of or persons interested in each particular description of real estate mentioned in said petition who have demanded said jury; and they shall be entitled to 2 dollars for each day they are engaged in the performance of their duties, to be paid in the first instance by the company. The said judge or a circuit court commissioner to be designated by him, may attend said jury, to decide questions of law and administer oaths to witnesses, and he may appoint the sheriff or other proper officer to attend and take charge of said jury while engaged in said proceedings. And the jury shall proceed to determine the amount of damages to be awarded, and shall have all the powers hereby conferred upon commissioners; and a report signed by the jury, where the judge is or is not in attendance, shall be valid and legal. At any time before the report of the jury or commissioners shall be made to the court it shall be competent for the company, after sufficient cause has been shown and with leave of the court, to discontinue all pending proceedings in any case and to institute

new proceedings at any time thereafter; but the company in all such cases shall pay all the costs of such proceedings so discontinued, with an attorney fee to be taxed as in cases at law.

464.22 Condemnation proceedings; confirmation of report; court order, contents.

Sec. 22. On such report being made by the commissioners or jury, the court on motion, shall confirm the same on the next or any subsequent day when in session, unless for good cause shown by either party; and when said report is confirmed, said court shall make an order containing a recital of the substance of the proceedings in the matter of the appraisal, and a description of the real estate or property appraised, for which compensation is to be made, and shall also direct to whom the money is to be paid, or when and where it shall be deposited by the company. Said court, as to the confirmation of such report, shall have all the powers usual in other cases.

464.23 Condemnation proceedings; recording of order; payment of compensation, rights of company; appeal.

Sec. 23. A certified copy of the order so to be made shall be recorded in the office of the register of deeds for said county, in the book of deeds; and thereupon on the payment or deposit by the said company of the sum to be paid as compensation for such land franchise or other property, and for costs, expenses, and counsel fees as aforesaid, and as directed by said order, the company shall be entitled to enter upon and take possession of and use the said land franchise and other property for the purpose of its incorporation; and all persons who have been made parties to the proceedings either by publication or otherwise shall be divested and barred of all right, estate, and interest in such real estate, franchise, or other property, until such right or title shall be again legally vested in such owner; and all real estate or property whatsoever, acquired by any company under and in pursuance of this act, for the purpose of its incorporation, shall be deemed to be acquired for public use: Provided, The said sum [to] be paid as damages, and compensation, and costs, expenses, and counsel fees as aforesaid shall be paid by the company, or deposited as provided in this act, within 60 days after the confirmation of said report by the said court; and in case said company fail or neglect so to do, such failure or neglect shall be deemed as a waiver and abandonment of the proceedings to acquire any rights in said land or property. Within 20 days after the confirmation of the report of the commissioners or jury, as above provided for, either party may appeal, by notice in writing to the other, to the supreme court, from the appraisal or report of the commissioners or jury, such notice shall specify the objections to the proceedings had in the premises, and the supreme court shall pass on such objections only, and all other objections, if any, shall be deemed to have been waived; such appeal shall be heard by the supreme court at any general or special term thereof, on notice thereof being given according to the rules and practices of the court. On the hearing of such appeal, the court may direct a new appraisal, before the same or new commissioners or jury, in its discretion. The second report shall be final and conclusive upon all parties interested. If the amount of the compensation to be allowed is increased by the second report, the difference shall be a lien on the land appraised, and shall be paid by the company to the parties entitled to the same, or shall be deposited as the court shall direct; and in such case all costs of the appeal shall be paid by the company; but if the amount is diminished, the difference shall be refunded to the company by the party to whom the same may have been paid, and judgments therefor and for all costs of the appeal shall be rendered against the party so appeal-

ing. On the filing of the report, such appeal, when made by any claimant of damages shall not affect the said report as to the right and interests of any party, except the party appealing, nor shall it affect any part of said report in any case, except the part appealed from, nor shall it affect the possession of such company of the land appraised; and when the same is made by others than the company, it shall not be heard except on a stipulation of the party appealing not to disturb such possession during the pendency of such proceedings.

464.23a Condemnation proceedings; acquisition right of way for highway purposes, procedure; pending proceedings.

Sec. 23-a. Whenever the line of any railroad or railway company is upon or adjacent to the right of way of a trunk line highway, and such railroad right of way or any part thereof is necessary to be acquired by the state for widening, straightening, altering or otherwise improving such highway, and the state highway commissioner has, in compliance with the law, entered into an agreement with such railroad or railway company to exchange other designated property for such right of way, or any part thereof whenever such other designated property shall be acquired by him, the said state highway commissioner shall be authorized and he is hereby empowered to acquire such other property to be exchanged for such railroad or railway right of way, or any part thereof, by condemnation under the provisions of this act, so far as may be applicable: Provided, however, That in all cases where the state highway commissioner shall elect to proceed according to the terms of this act, he may make a written determination of the necessity of the particular road construction, improvement or maintenance project for which such property is desired and necessary in making the exchange as set forth herein; the necessity for taking the particular property described, and the damages which, in his opinion, should be paid as compensation for the taking of each parcel of such property. It shall not be necessary for the state highway commissioner to attempt to acquire any of such property or property rights by purchase or agreement before initiating any proceeding under the provisions of this act, and in no case shall an attempt to so acquire such property be considered a condition precedent to the acquirement of such property or property rights through the exercise of the power of eminent domain under this act or any other act. Such determination shall be made by the state highway commissioner only after a hearing, of which written notice shall be given to each person interested in the property desired, at least 7 days before the time of hearing, such notice to be served either personally or by leaving a copy at the residence of the person or persons interested, or in the case of non-residents, by posting copies thereof in 5 conspicuous places in the township, 1 of which shall be on the property, and by mailing a copy thereof by registered mail addressed to the last known postoffice address of each such non-resident person or persons. Such determination shall describe the property desired and shall give the name of each person interested therein so far as known to the commissioner.

Such determination shall be filed in the office of the state highway commissioner and a certified copy thereof shall be recorded in the office of the register of deeds of the county in which the property is situated. Compensation for the taking of the property therein described shall be paid or tendered to the owner thereof, if known and residing in the county in which the land is situated, and if such tender be not accepted or the owner shall be unknown or a non-resident of the county, by depositing the amount thereof with the state treasurer, which has been determined by the state highway commissioner as damages to be paid as compensation; the same to be paid to the person or persons entitled thereto upon the execution or delivery of the proper release

or releases, or subject to the order of the court in case of an award of damages by court commissioners as hereinafter provided.

Upon the filing of such determination and proof of payment or deposit as above provided, the commissioner shall give notice thereof to the owners or occupants of the property therein described, which notice shall state that the said commissioner is about to take possession of said property for the public highway purpose in said determination stated, and may also contain a notice to the owners or occupants of such property to remove their fence or fences and other obstructions and encroachments within 10 days thereafter. Upon the filing of such determination and the giving of such notice as aforesaid, the title and the right of possession to all of the property and property rights described in the determination shall vest in the state for the purpose therein stated; and in case the owners or occupants thereof shall neglect or refuse to move their fence, fences and other obstructions and encroachments within 10 days, the commissioner shall have full power and it shall be his duty to enter upon the premises with such aid and assistance as shall be necessary and remove such fence or fences, obstructions and encroachments without delay.

Within 90 days after the filing of any such determination of necessity as aforesaid, the state highway commissioner shall file with the circuit court of the county in which such property is situated a petition describing the project for which the property is being taken, reciting that the said state highway commissioner has made and filed the determination of necessity as herein above provided, and that the state highway commissioner has taken or is about to take possession of the property described in said determination, for the public highway purposes, stating whether it is deemed necessary to take the fee of said property, so far as known to the state highway commissioner, or an easement therein, or the fee of part and an easement in part, giving the name of each person interested in each such piece or parcel of property, so far as known, and praying for the appointment of 3 court commissioners to appraise the damages to be paid as compensation for the taking of each such piece or parcel of property for such public purposes. Upon the filing of such petition the court shall make an order appointing 3 disinterested persons commissioners, herein called court commissioners, whose duty it shall be to determine the damages to be paid as compensation for the taking of property or property rights. Such commissioners shall thereafter proceed in exactly the same manner and shall possess the same powers and duties, with regard to the determination of the damages to be paid as compensation, as though such commissioners had originally been appointed by the court under the provisions of this act, to determine both the necessity and the damages to be paid as compensation.

The provisions of this act, with relation to the powers and duties of such commissioners, shall apply to the commissioners appointed under the provisions of this section: Provided, however, That the provisions of this act, with relation to a jury to determine necessity and to fix the compensation for the taking of property, shall not apply and shall not be used in any case in which the highway commissioner shall use the provisions of this act, and in no case shall the necessity for the taking of such property by the state be determined in any way, except by the highway commissioner upon due notice and hearing as herein provided, nor shall the damages to be paid as compensation be assessed in any other manner than by the court commissioners, as herein provided.

The benefits arising out of and created by the public purpose for which property may be taken under the provisions of this act, accruing to the owners of land or lands or property rights by reason of such public use of the property taken, shall be taken into consideration in determining the damages to be paid to any such owner as compensation for the taking of his property for any such public purpose. In each such case, the court commissioners, or the jury, as the case may be, shall state such fact, and the

amount deducted on account of such benefits, in the award made and the report thereof.

The provisions of this act shall not be construed to repeal any act or any part or section of any act nor to deprive the state highway commissioner of the right to take property for the purposes set out in this section, under the provisions and according to the procedure set out in the highway condemnation statutes known as Act No. 352 of the Public Acts of 1925, as amended by Act No. 92 of the Public Acts of 1927; it being the express intention that the state highway commissioner shall have the right to proceed under the terms of this act or according to the provisions of such highway condemnation acts and also to confirm and make certain by this act the right of the state highway commissioner to use such highway statutes in taking property for such purposes.

If any proceeding to condemn property for such highway purposes be pending at the time this act takes effect, the same shall not abate or be discontinued by reason of this act, but the commissioner may, if the proceeding be one for which the provisions of this act are applicable, prepare, file and serve a determination of necessity as hereinabove provided for, and thereupon the commissioner may take possession of the property as herein provided, and such proceeding may be continued as though commenced under this act in the first instance, both as to the procedure to be taken and as the determination of damages to be paid as compensation for the taking of the property for such public highway purposes.

464.24 Condemnation proceedings; title in doubt, payment of compensation.

Sec. 24. If there are doubts about the title, or to whom money, or any part of it, to be paid as compensation for the real estate or property taken belongs, the court may direct the money to be paid into the said court by the company, and may determine who is entitled to the same, and direct to whom the same shall be paid, and may in its discretion order a reference to ascertain the facts on which such determination and order are to be made.

Sec. 25. The court shall have power at any time to amend any defect or informality in any of the special proceedings authorized by this act, as may be necessary, or to cause new parties to be added, and to direct such further notices to be given to any party in interest as it deems proper; also to appoint other commissioners in the place of any who shall die, or refuse, or neglect, or are unable to serve, or who may leave or be absent from the state.

464.26 Perfection of title; procedure; acquisition of title after occupancy.

Sec. 26. At any time after an attempt to acquire title by any railroad, bridge or tunnel company, by an appraisal of damages or otherwise, if it shall be found that the title thereby attempted to be acquired is defective, the company may proceed anew to acquire or perfect the same in the same manner as if no appraisal had been made, and at any stage of such new proceedings the court may authorize the corporation, if in possession, to continue in possession, and if not in possession, to take possession of and use such real estate or other property during the pendency and until the final conclusion of such new proceedings; and may stay all actions or proceedings against any company, or any officer or workman of such company, on account thereof, on such company paying into court a sufficient sum, or giving security, as the court may direct, to

pay the compensation therefor when finally ascertained; and in every such cause the party interested in such real estate or other property may conduct the proceedings to a conclusion if the company delays or omits to prosecute the same: Provided, Any railroad company which have heretofore entered upon, taken, occupied and used any lands within this state for the purpose of their road, shall have the same right to acquire title to, or right of way over, said land so taken by them, as if they had proceeded to acquire said title or right of way before having entered upon the same.

Sec. 28. Any company organized under this act may build such spur tracks or branches as may be found necessary to develop business along its line of road, as the board of directors may judge to be expedient, and for that purpose shall have the same powers and rights in all respects as are conferred upon it for the construction of the main line, and may subscribe to the capital stock of any other company organized under this act with the assent of such other company; and any railroad chartered or organized under any other law of this state may subscribe to the capital stock of any company organized under this act not having the same terminal points and not being a competing line, with the assent of the company to whose stock such subscription is made, and any company organized under this act may make any arrangement with any other railroad company, whether organized or incorporated under this act or any other act, for running its cars over the road of such other company, or for the working and operating of such other roads as said companies shall mutually agree upon; and any companies organized or incorporated under this or any other act whose lines are connected, may enter into any arrangements for their common benefits, consistent with and calculated to promote the objects for which they were created. All companies owning or operating such spur or branch railroad, or making any such contract or agreement with connecting or intersecting lines of railroad shall furnish cars and transport freight over such spur, branch or connecting road at the same rates and subject to the same restrictions and regulations as shall be adopted for the transportation of freight upon the main line. 464.29 Consolidation or merger of railroad companies; agreement; directors of new company; submission to stockholders.

Sec. 29. Subject to the approval of the interstate commerce commission in any case where that commission has jurisdiction and in all other cases subject to the approval of the Michigan public utilities commission, any railroad company organized under the laws of this state, or under the laws of this state and any other state or states or country, and owning or operating, or authorized by its charter to construct or acquire, a railroad forming a continuous or connecting line with that of any other railroad company, or companies, may consolidate with such other company or companies, or may merge or be merged into any such other company, so that said companies shall thereafter be a single corporation. The directors of said 2 or more companies or corporations may enter into an agreement under the corporate seal of each corporation, for the consolidation or merger of the said 2 or more corporations, prescribing the terms and conditions thereof; the mode of carrying the same into effect; the name of the new corporation in the case of a consolidation or of the corporation that is to survive in the case of a merger; the numbers of the directors thereof, and in case of a consolidation the names of those who shall be the first directors of the new corporation, which shall be deemed and taken to be the first election of the directors of the new company, which number shall not be less than 3; the time and place of holding the first election of directors of the new corporation after the consolidation, which time shall not exceed 6 months after such consolidation has been sanctioned by the stockholders of said 2 or more corporations, as hereinafter provided; the number of shares of capital stock which the new or surviving corporation is authorized to have; the amount of its authorized capital stock, which amount shall be the aggregate par value of all authorized shares having par value, plus the aggregate amount of value placed in the agreement of consolidation or merger upon all authorized shares of non-par value; the classes of stock authorized, any of which classes may be with or without nominal or par value, with such designations, relative rights, preferences, conditions, limitations, restrictions and voting rights as shall be specified; the number of shares of each class having par value, with the par value of each share; the number of shares of each class having no par value, with the value placed upon each share of each class, and the consideration for which the company may issue and sell such shares, or authorization to the board of directors to fix such consideration from time to time, which consideration shall in no event be less for any such share than the value placed thereon in the agreement of consolidation or merger,—and when the consideration for which any such share was authorized to be issued shall have been received by the company such share shall be deemed to be fully paid and non-assessable; the manner of converting the capital stock of each corporation into the capital stock of the new or surviving corporation, or the manner of otherwise disposing of said capital stock; with such other details as they shall deem necessary to perfect such consolidation or merger: Provided, however, That in case of a merger it shall not be necessary for such agreement to contain the provisions above specified with regard to directors and capital stock of the surviving corporation unless, and then only to the extent that, changes in respect to such matters are to be made by such merger agreement; and such new or surviving corporation shall possess all the powers, rights and franchises conferred upon the 2 or more corporations that are parties to such agreement: Provided, however, That any power, right, franchise, privilege or immunity possessed by either or any of the consolidating or merging companies of a kind which would not be possessed by a company organizing originally under the provisions of this act, as now existing or as hereafter amended, shall be utterly lost, annulled and abrogated; and such new or surviving corporation shall be subject to all the restrictions and perform all the duties imposed by this act as now existing or as hereafter amended as if it were a corporation originally

organized thereunder. Such agreement of the directors shall not be deemed to be the agreement of the said 2 or more corporations until after it has been submitted to the stockholders of each of said corporations separately at a meeting thereof, to be called upon a notice signed by the secretary or assistant secretary of the corporation, stating the purpose of the meeting, and published at least once in each week for 4 successive weeks in 1 daily newspaper, if any there be, published in the place where each corporation maintains its principal office within the state, the first publication to be at least 60 days before the time specified for the meeting, nor until it has been sanctioned by a majority vote of the stockholders of each class of stock having voting powers, each share entitling the holder thereof to 1 vote, which vote may be cast by the holder in person or by proxy; and when such agreement of the directors has been so sanctioned by each of the meetings of the stockholders separately, in the manner above mentioned, then such agreement of the directors shall be deemed to be the agreement of the said 2 or more corporations. A copy of such agreement of consolidation or merger filed in pursuance of this act, and the acts amending or revising the same, with the secretary of state, and certified by him to be a copy, shall in all courts and places be presumptive evidence of the consolidation or merger, as the case may be, of said 2 or more companies, and of all the facts therein stated: And provided, That any railroad bridge company, or any railroad tunnel company, which may be organized under this act to bridge or tunnel the Detroit river, or the St. Clair river, or any of the waters in the jurisdiction of this state, shall have a right to consolidate the stock, property and assets of said company with the stock, property and assets of any connecting railroad company or of any company organized or to be organized under the laws of this state, or which may be created under the laws of any adjacent state or country, to construct any such bridge or tunnel therewith, or to merge or be merged into any such other corporation, in the manner in this section above provided, upon such terms, conditions and agreements as may by the said corporations be deemed just and equitable: Provided, That every such bridge or tunnel shall be so constructed as not to be a material obstruction to navigation.

And when the railroad lies partly within and partly without this state, prima facie, the gross income of said company from such road for the purposes of taxation shall be on the actual earnings of the road in Michigan, computed by adding to the income derived from the business transacted by said company entirely within this state, such proportion of the income of said company arising from interstate business, as the length of the road over which said interstate business is carried in this state bears to the entire length of the road over which said interstate business is carried. The taxes so paid shall be in lieu of all other taxes upon the properties of such companies, except such real estate as is owned and can be conveyed by such corporations under the laws of this state, and not actually occupied in the exercise of its franchises, and not necessary or in use in the proper operation of its road, but such real estate so accepted shall be liable to taxation in the same manner, and for the same purposes, and to the same

In cases where a railroad is immediately adjacent to or laid upon a highway and intervenes between said highway or the usually traveled portion thereof and the residence buildings of real property fronting upon said highway, open, unobstructed residence crossings, suitably guarded, substantially as are provided for highway and street crossings, shall be provided and maintained by the railroad corporation operating said railroad: Provided, The same shall be so ordered by the Michigan railroad commission. It shall also be the duty of each railroad company or corporation to construct and maintain a convenient and suitable crossing across its right of way to any private property, summer home or summer resort, whenever request therefor is made by any owner or owners or occupants of any such property. In case of disagreement between the owner of any such land and the railroad corporations as to the necessity for, location of, or character of farm crossings, or such private residence or other crossing so applied for, or as to the plan or construction of the gate or guards as herein provided, then either party may present the matter in dispute to the Michigan railroad commission, which may proceed to investigate the same as soon as may be and render its decision thereon, which shall be final and binding upon the parties, respectively, and such farm crossings and such private residence or other crossings shall be constructed within the time prescribed by the said Michigan railroad commission under a penalty of 10 dollars for each and every day that such complete construction of the farm crossing, private residence or other crossing shall be delayed beyond the expiration of the time fixed for its completion by the said Michigan railroad commission. Such railroad corporation shall also be liable to the owner or occupant of said adjacent lands for all actual damages resulting from its failure to construct and maintain and properly guard such open and unobstructed way as herein provided for such private residence or other crossings. Until such crossings, fences and cattle-guards as hereinbefore provided for shall be duly constructed, the company or corporation owning or operating such road shall be liable for all damages done to cattle or other animals thereon which may result from the neglect of such company or corporation maintaining or operating such road, to construct and maintain in repair such crossings, fences and cattle-guards as aforesaid, to be recovered by the owner of such cattle or other animals in a civil action before any court of competent jurisdiction, and after such company or corporation shall have constructed such crossings, fences and cattle guards as hereinbefore provided, and while it shall continue to maintain the same in good and sufficient repair, it shall not be liable for any such damages as aforesaid, unless negligently or wilfully done. Every such company or corporation owning or operating any such railroad shall, within 3 months from the time any section or portion of such road is finished and put in general use by running regular trains thereon, and in the case of any roads now in use from the time this act shall take effect, erect and maintain the crossings, fences and cattle-guards as herein provided. Any violation of the provisions of this section on the part of any railroad corporation owning or operating any railroad in this state, by failure or neglect to construct and maintain crossings, fences and cattle-guards as herein required, shall be punished by a penalty of 25 dollars per day for each and every day that such neglect or failure shall continue: Provided, That if such fences and cattle-guards shall not be built as aforesaid along such portions of any line of road as is or may be constructed north of a line extending due

west from the mouth of the Saginaw river, the corporation or company owning or operating any such line of road shall not be liable to the said penalty unless such fence or cattle-guards shall be ordered by the Michigan railroad commission, but shall be liable to all the other provisions of this section; and if any person shall ride, lead or drive, or intentionally permit any horse or other animal upon such road and within such fences or cattle-guards other than farm crossings, private residence or other crossings, or shall injure or destroy, or make openings or passages through or over such fences or cattle-guards, or neglect to close any gates or bars immediately after passing through the same, without the consent of such company or corporation, he shall, for every such offense, be liable to a fine not exceeding 100 dollars, and shall also pay all damages which shall be sustained thereby to the party aggrieved: Provided further, That nothing herein contained shall be construed to prevent the erection of any other fence than that herein provided for, as may be agreed upon in writing between the duly authorized agent or officer of any railroad corporation and the owner of any land through which the road of such corporation may be in operation.

AN ACT to promote the public safety and make more safe crossings of streets and highways with railroads and railways.

The People of the State of Michigan enact:

469.1 Railroad grade crossings at highways; improvement, maintenance, alteration, apportionment of cost.

Sec. 1. The parties owning railroad tracks crossing any public highway at grade shall improve, if necessary, and thereafter maintain, renew and repair all railroad roadbed, track and railroad culverts within the confines of the highway, and the surfacing lying between the rails and for a distance outside the rails of 1 foot beyond the end of the ties, and the public authorities having jurisdiction over such highway shall improve, if necessary, and thereafter maintain, renew and repair all the rest and remainder of said highway. The space between the rails and for a distance outside of the rails of 1 foot beyond the end of the ties shall be surfaced with a material which shall be as durable as the adjacent highway surfacing, if reasonably practicable, and shall have minimum qualifications not inferior to wooden planks, and shall be maintained, as nearly as reasonably may be, in a condition as smooth as that of the adjacent highway, and such surfacing of planks or other material at all state trunk line highways and county highways shall have a width of not less than the width between the established curb lines, or, in the absence of such curb lines, the width between the established shoulder lines of the highway, but not less than 16 feet. The full cost of maintaining and repairing all existing crossings shall be borne by the respective parties responsible for the work as herein provided. The cost of improving an existing crossing, where such improvement is necessary, shall be borne in the same manner as herein provided for maintenance and repair. At any new crossing at grade or at any existing crossing at grade to be improved, any alteration in the existing elevation of top of railroad track rails to provide a satisfactory gradient shall be mutually determined by the highway and railroad authorities; but in case of failure to agree, the Michigan public utilities commission is hereby authorized to establish such reasonable elevations after due hearing thereon. The elevation of railroad track rails shall not be altered as now existing across any improved state trunk line or county highway without the approval of both railroad and highway authorities, unless and except in the amount ordered by the Michigan public utilities commission and no variation in such elevation of more than substantially 1 inch will be allowable for track maintenance. Where the elevation of track rails is

agreed upon or authorized for purposes other than to conform to the requirements of the adjacent highway as now existing, the entire cost of both the work conducted by the railroad company or companies and highway authorities shall be borne by the party requesting the change. The railroad authorities shall not perform any work of any kind excepting emergency and minor repairs on state trunk line and county highways between the established curb lines, or, in the absence of established curb lines, between the established lines of the highway, without first notifying the highway authorities having jurisdiction over such highway, and without first providing and thereafter maintaining necessary barricades, lights, watchmen and traffic detours.

NOTE: The public utilities commission has been abolished and superseded by the public service commission, see Compilers' § 460.4.

FORMER ACT: Act 136 of 1897, being CL 1915, 8389-8393, was repealed by Act 178 of 1925.

RAILROAD CROSSINGS: Separation of highway and railroad grades, see Compilers' § 253.1 et seq.

Method of laying out highway across railroad right of way, see Compilers' §§ 221.27 and 464.9 subd. 5.

Flagman and crossing protection, see Compilers' §§ 462.36 and 462.37.

469.2 New grade crossings; improvement of existing grade crossings; cost.

Sec. 2. The full cost of constructing a new highway over an existing railroad, or of a new railroad track or tracks over an existing highway, shall be borne by the party requesting such crossing. Thereafter the terms of this act shall apply to such new crossing. In respect of state trunk line or county highways at grade, the plans for such crossing shall be approved by both railroad and highway authorities. In the event of failure to agree on the part of the railroad authorities, the Michigan public utilities commission shall settle the points of disagreement by the terms of its order. The relocation of an existing crossing or the establishment of a new crossing at which the adjacent public highway grade crossing is completely and legally abandoned, shall be constructed and the cost borne in the same manner as in the case of a new crossing. Temporary crossings shall be constructed, maintained and removed at the sole expense of the parties requesting the same. Nothing in this act shall require any railroad company or railroad companies to reconstruct, change or alter an existing crossing of a public highway with its railroad tracks at grade unless and until the railroad company or railroad companies shall improve said crossing or the public authorities having jurisdiction thereover shall improve said crossing in which event each party shall notify the other in sufficient time in advance so as to permit the other party to conform to such improvements. After the completion of said improvements at any such crossing neither the grade of the top of the rails of the railroad tracks or of the highway and its surfacing shall be changed except by mutual agreement of the parties interested, subject to limitations for track maintenance as specified in section 2, but, in the event of failure to so agree, then upon order of the Michigan public utilities commission after due hearing thereon: Provided, That the highway authorities having jurisdiction over such highway, if they deem such improvement necessary, may request a railroad company or companies in writing to improve any existing crossing at grade of such railroad or railroads with any state trunk line or county highway, and, in the event of such railroad company or companies refusing so to do, may make application to the Michigan public utilities commission for such improvement, and the commission after due hearing thereon shall determine the matters in dispute under this section by order.

HIGHWAY TRAFFIC SIGNS: See Compilers' § 257.606 et seq.

469.3 Warning signs; distance from tracks, vision.

Sec. 3. The highway authorities shall at their own expense furnish, renew, and maintain on the right hand side of the highway approaching all crossings of highways with railroad tracks, at a distance from the intersection of the center line of highway with the nearest rail inasfar as practicable, of not less than 250 feet nor more than 350 feet, advance warning signs of a design to be prescribed by the state highway commis-

sioner and subject to such revision from time to time as the state highway commissioner may deem necessary in the best interests of public safety for highway traffic. All such signs must be maintained, free from obstruction to vision, for not less than 300 feet in advance of the signs.

HISTORY: CL 1929, 11404;—Am. 1931, p. 803, Act 336, Eff. Sept. 18;—CL 1948, 469.3.

469.4 Warning signs; speed of vehicles after passing.

Sec. 4. The person controlling the movement of any self-propelled vehicle or other vehicle, upon passing said sign board going toward the railroad or railway, shall reduce the speed of such vehicle so that within a distance of 100 feet from the nearest rail of such crossing, such vehicle shall be under control and shall not be proceeding at a greater speed than 10 miles per hour. This provision shall be deemed to require a precaution in addition to those now prescribed by law.

HISTORY: CL 1929, 11405;—CL 1948, 469.4.

SPEED OF VEHICLES: In general, see Compilers' § 257.627 et seq. Stopping at certain crossings, see Compilers' § 257.668.

469.5 Warning signs; standard crossbuck design; reflector buttons; expense, location; flashing signals.

Sec. 5. Except as herein provided, at all state trunkline and county highway crossings with railroad tracks, the highway authorities shall, at all crossings of public highways with railroad tracks outside of the corporate limits of cities and villages, at the equal expense of railroad and highway authorities, furnish, renew and maintain on the right hand side of the highway approaching the railroad tracks, and at a distance from the nearest rail to be established by the railroad authorities, and from the center line of the highway to be established by the highway authorities, standard railroad crossing signs embodying a crossbuck design and provided with the designation "railroad crossing tracks" (insert number of tracks), indicating the actual number of tracks to be crossed, and all signs with this designation shall be provided with reflector buttons or reflectorized with reflectorizing material in accordance with Michigan state highway department specifications. Such signs shall conform to a design prescribed by the state highway commissioner and shall be subject to such revision from time to time as the state highway commissioner may deem necessary in the interests of public safety for highway traffic; but the cost of any change or changes after the original installation as herein provided, except in the case of renewals on account of destruction or decay through lapse of time, shall be borne solely by the highway authorities. Nothing in this section five (5) shall be so construed as to require the railroad and highway authorities to replace existing railroad crossing signs until such existing railroad crossing signs need replacement or renewal because of obsolescence, destruction or decay. The material of construction and the mounting of such signs may be of timber provided that the essential features of the signs conform to the requirements of the state highway commissioner. Such railroad crossing signs shall be located as nearly as may be in the same position as would be specified for the location of flashing signals approved by the state highway commissioner, and when such flashing signals are provided or already existing, the railroad crossing signs shall be omitted or removed.

469.6 Clear vision areas; regulation.

Sec. 6. Whenever the railroad company or railroad companies and the public authorities having jurisdiction over such highway shall so agree in writing in connection with the establishment of a new crossing, or the improvement of an existing crossing, that portion of the right of way and property owned and controlled by either highway or railroad authorities within the limiting area to be provided for clear vision as herein-after described, shall be considered as dedicated to the joint usage of both highway and railroad improvements, and without charge to either party. The portion of prop-

erty so included shall be maintained for clear vision, and the spotting of cars on railroad tracks, parking of automobiles on the highway, construction of buildings, signs and/or other obstructions of vision, and the growth of weeds, brush or similar obstructions shall be prohibited, controlled and maintained to such an extent as may be reasonably practicable.

469.7 Clear vision areas; development and maintenance as highway expense.

Sec. 7. Whenever the railroad company or companies and the public authorities having jurisdiction over such highways shall so agree in writing as provided in section 6 hereof, and it shall be reasonably practicable, the improvement of an existing crossing and the establishment of a new crossing shall include a clear vision area covering each of the 4 quadrants determined by the intersection of the highway and the railroad. These areas shall be provided and improved to furnish a clear vision to the driver approaching the crossing on the highway for a reasonable distance back from the crossing and thereafter until the vehicle reaches the crossing, insofar as the same may be reasonably practicable. The acquisition of right of way, purchase and removal of obstructions to vision within such areas, including buildings and other artificial constructions, trees, brush and other growths, and grading or earthwork, and including the maintenance of such conditions, shall be at the sole cost and expense of the highway authorities.

Sec. 8. When in the discretion of the Michigan public utilities commission the safety of the public shall hereafter require that some protection device or improvement in existing devices be provided at a railway crossing to warn of the approach of trains about to cross the highway, it shall be the duty of the Michigan public utilities commission and it is hereby empowered to order the railway authorities owning the tracks of such crossings to provide protection of a flashing light type equipped with a gong of approved type at each signal which shall, unless otherwise agreed upon by the highway authorities responsible for the maintenance of the highway, be installed on the right hand side of the highway approaching the crossing from each direction on the near side of and at a distance from the center line of the outside tracks to be determined by the railway authorities and at a distance from the center line of the highway and above the crown of the roadway to be determined by the highway authorities responsible for the maintenance of the highway. All flashing light types of protection shall consist of two 8 inch diameter lights equipped with red lenses and reflectors mounted side by side on an appropriate standard arranged to flash alternately each light to be visible from both directions on the highway. All standards carrying flashing lights shall also carry at a height to be specified by the highway authorities, a cross-buck design bearing the designation "Railroad Crossing ... Tracks" with letters studied with reflecting buttons, this design conforming to the requirements for "Crossing Signs" as specified in this act. The standard shall in addition bear the designation "Stop on Red" in reflecting button design of similar type to the crossing sign. Whenever flashing lights are installed at any crossing and the Michigan public utilities commission shall find it necessary, they shall be so arranged that for every train or switching movement over the crossing, the flashing lights shall be in operation for a period of not less than 20 seconds nor more than 60 seconds in advance of the train movement reaching the nearest established curb line of the highway and the flashing lights shall continue to operate until the train movement has passed the established curb line on the near side of the highway. The cost of all flashing light installations and alterations

or relocations of same shall be borne equally by the railway and highway authorities, and thereafter they shall be maintained by the railway authorities at their own expense except that the highway authorities shall pay \$10.00 per month to the railroad authorities for each crossing protected by flash light signals. The railway authorities shall, however, furnish standard equipment uniform for all railroads and on a cost and installation basis consistent for all railroads and unusual or unbalanced costs shall be subject to the review and adjustment of the Michigan public utilities commission.

Sec. 7. For the purpose of acquiring such title, such company may present a petition to any court of record for such county, praying for the appointment of 3 commissioners. Said petition shall be in the name of the company, and shall be signed by 1 of the directors, or the engineer, or the attorney of said company, on its behalf, and shall be verified by the oath of the person so signing the same, and shall contain the description of all the real estate, property or franchises, or so much thereof as the company seeks to acquire under such petition in said county; and that said company is duly incorporated; that the capital stock of the company has been, in good faith, subscribed, as required by this act, to organize such company; that the company has surveyed its depot grounds and the route of its proposed tracks in said county, and made a map and survey thereof, by which said depot ground and route is designated; and that it has located the same according to such survey, and filed a certificate thereof, signed by a majority of the directors of said company, in the register's office of said county; that the property described in the petition is required for the purposes of its incorporation, and that the taking thereof is necessary for public use, and that the company has not been able to acquire title thereto, and the reason of such inability. The petition must also state the names and places of residence of the parties so far as the same can with reasonable diligence be ascertained, who own, or have, or claim to own, or have estates or interests in said lands or property; and if any such persons are infants, their ages, as near as may be, must be stated, and if any of them are idiots, or persons of unsound mind, or are unknown, it must be so stated, together with such other facts and allegations as to incumbrances or otherwise, as will be sufficient to show who have or claim to have interests in said lands, real estate or property, and such other matters as the company may see fit to make. A copy of such petition, with a notice of the time and place, when and where the same will be presented to such court, must be served on all persons whose interests will be affected by the proceeding, at least 10 days prior to the presentation of the same to the court, as follows, viz.:

First, If the person on whom service is to be made resides in this state, and is not an infant, under the age of 14 years, idiot, or person of unsound mind, service of a copy of said petition and notice must be made on him, or his agent, or attorney authorized to contract for the sale of real estate described in the petition, personally, or by leaving the same at the usual place of residence of such person or agent, with some person of suitable age; and if he resides out of this state, but has such agent as aforesaid residing in this state, then such service may be made on such agent in the manner aforesaid, or upon him personally out of or within this state; or it may be by publishing a notice stating briefly the object of the application, and giving a description of the land, inter-

est therein, or property to be taken, and in some paper published in the county in which said lands or property are situated, if there be 1, and if not, then in some weekly paper published in the city of Detroit, once in each week for 6 weeks next previous to the presentation of the petition; and if the residence of such person or persons residing out of this state be known, a copy of such petition and notice shall be deposited in the postoffice at least 30 days previous to presenting such petition, directed to such person at his place of residence, as near as may be, postage prepaid;

Second, If any person on whom such service is to be made is a minor under the age of 14 years, or an idiot, or person of unsound mind, and resides in this state, such service shall be made as aforesaid, on his guardian; or if none, then on the person who has the care of, or with whom such infant, idiot, or person of unsound mind resides;

Third, If the person on whom such service is to be made be unknown, or his residence unknown, then such service may be made by publication for 6 weeks in the same manner provided in the first subdivision of this section, and the court or judge shall appoint an attorney to appear for and protect the rights of any such person;

Fourth, In case any party to be affected by the proceeding is an infant, idiot, or person of unsound mind, and has no guardian, the said court, or the judge of said court, shall appoint a special guardian or committee to appear for and attend to the interests of such infant, idiot, or person of unsound mind, and all notices to be served in the progress of the proceeding may be served on such special guardian;

Fifth, In all cases not otherwise provided for, service of orders, notices and other papers in the proceedings authorized by this act, may be made as the said court or judge may direct.

GUARDIAN AD LITEM: See (Jud. Act) Compilers' § 600.2415 and GCR 201.

471.8 Condemnation proceedings; procedure, commissioners, jury.

Sec. 8. On presenting such petition to said court or the judge thereof at chambers, with proof of service of a copy thereof, and due notice as aforesaid, all persons whose estate or interest are to be affected by the proceedings may show cause against the prayer of the petition, and may disprove any of the facts alleged therein; and said court or judge shall hear the proofs and allegations of the parties; and if no sufficient cause is shown against granting the prayer of the petition, said court or judge shall make an order appointing 3 disinterested and competent freeholders as commissioners to ascertain and determine the necessity for taking such lands, franchises, or other property, and to appraise and determine damages or compensation to be allowed to the owners and persons interested in the real estate or property proposed to be taken in such county for the purposes of the company; and such court, or the judge thereof, shall fix the time and place for the first meeting of such commissioners: Provided, That any person or persons, or company, whose estate or interest is to be affected by the proceedings, may demand and have from such court, at the time of hearing of said petition, a jury of 12 freeholders of said county to ascertain and determine the necessity for taking such lands, franchises, or other property, and to appraise and determine the damages or compensation to be allowed therefor. Thereupon the court shall direct the sheriff or any constable of the county to make a list, in writing, of 24 inhabitants of the county, qualified to serve as jurors in the courts of record in this state. Such sheriff or officer shall, before he proceeds to make such list, be sworn by the court or judge to select such persons according to his best judgment, and without favor or partiality to either party. From such list the person or persons demanding such jury may alternately strike off 6 names, and the petitioning company 6 names, and in case of either of them refusing or neglecting to do so, the judge shall strike off from said list for the party so refusing or neglecting, so as to leave only 12 names thereon. Such court, or the judge thereof, shall issue a venire in the usual form, inserting therein the 12 names

so remaining on said list, and requiring such jury to meet at the time and place appointed therefor by the court, which said venire may be served by the sheriff, any constable, or other proper officer of the county, as in other cases; and if at the time and place appointed by said court or judge for said jury to meet, any of the persons named as jurors do not attend, or if any named in the venire, or chosen as talesmen, shall be rejected in a challenge for cause (which right of challenge is hereby granted), it shall be competent for said court, or the judge thereof, to order the said sheriff or other officer to summon immediately as many competent persons as may be necessary, with the persons in attendance as jurors, to furnish a panel of 12 jurors; and if no jury be demanded on the part of any person mentioned in said petition, his or her right to the same shall be deemed to have been waived. In case any parcel of land is owned or occupied by parties having different interests or estates therein, or in any part thereof, they may be united as respondents in respect to the same in the petition, and thereafter the proceeding [proceedings] touching the same shall be carried on as 1 suit. The demand of any 1 of the respondents for a jury shall be deemed to be a demand for all; and if they shall fail or neglect to unite in striking 6 names from the jury list, the judge shall strike off 6 names for them; and in such cases the jury shall not only determine the entire damages and compensation to be paid for the whole property taken, but shall, in their report, also justly and impartially apportion and award the amounts to be paid to the owner or owners of each estate in the land so taken.

471.9 Condemnation proceedings; commissioners; jury; discontinuance, costs.

Sec. 9. The commissioners shall take and subscribe the oath prescribed by article 18 of the constitution. Any of them may issue subpoenas, administer oaths to witnesses, and a majority of them may adjourn the proceedings before them from time to time in their discretion. Whenever they meet, except by appointment of the court or judge, or by previous adjournment, they shall cause reasonable notice of such meeting to be given to the parties who are to be affected by their proceedings, or the attorneys or agents of such parties. They may view the premises described in the petition, and shall hear the proof and allegations of the parties, and shall reduce the testimony, if any is taken by them, to writing, if requested to do so by either party, and after the testimony is closed in such case, and without any unreasonable delays, and before proceeding to the examination of any other claim, all being present and acting, shall ascertain and determine the necessity of taking and using any such real estate or property for the purposes described; and if they deem the same necessary to be taken, they shall ascertain and determine the damages or compensation which ought justly to be made by the company therefor to the party or parties owning or interested in the real estate or property appraised by them. They shall also determine and certify what sum ought to be paid to the general or special guardian of an infant, idiot, or person of unsound mind, or to said court, to be held for an unknown party in interest not personally served with notice of the proceedings, and who has not appeared, for damages and cost or expenses and counsel fees. They shall make a report to said court or judge, signed by them, of the proceedings before them, if any, which may be filed with the clerk of the court, either in vacation or term time, or the probate court as the case may be. Said commissioners shall be entitled to 2 dollars a day for each day they are engaged in the performance of their duties, to be paid in the first instance by the company. In case a jury shall have been demanded and ordered by the court, pursuant to section 8 of this act, the said jury shall proceed to ascertain and determine the necessity of taking and using any such real estate or property, and the damage or compensation to be paid by the company therefor, in the same manner and with like effect as is provided in this section in the case of commissioners, and as is further provided in said

section 8; but they shall all be present and act together during the proceedings, and before acting shall take and subscribe an oath that they will justly and impartially ascertain and determine the necessity of taking and using any such real estate or property for the purposes proposed; and if they deem the same necessary to be taken, will ascertain and determine the damages or compensation which ought justly to be made by said company to the owners of or persons interested in each particular description of real estate mentioned in said petition who have demanded said jury; and they shall be entitled to 2 dollars for each day they are engaged in the performance of their duties, to be paid in the first instance by the company. The said judge, or a circuit court commissioner to be designated by him, may attend said jury, to decide questions of law and administer oaths to witnesses, and he may appoint the sheriff or other proper officer to attend and take charge of said jury while engaged in said proceedings. And the jury shall proceed to determine the amount of damages to be awarded, and shall have all the powers hereby conferred upon commissioners; and a report signed by the jury, whether the judge is or is not in attendance, shall be valid and legal. At any time before the report of the jury or commissioners shall be made to the court, it shall be competent for the company, after sufficient cause has been shown and with leave of the court, to discontinue all pending proceedings in any case and to institute new proceedings at any time thereafter; but the company in all such cases shall pay all the costs of all proceedings so discontinued, with an attorney fee to be taxed as in cases at law.

471.10 Condemnation proceedings; confirmation of report; court order, contents.

Sec. 10. On such report being made by the commissioners or jury, the court, on motion, shall confirm the same on the next or any subsequent day when in session, unless for good cause shown by either party; and when said report is confirmed, said court shall make an order containing a recital of the substance of the proceedings in the matter of the appraisal, and a description of the real estate or property appraised, for which compensation is to be made, and shall also direct to whom the money is to be paid, or when and where it shall be deposited by the company. Said court, as to the confirmation of such report, shall have the powers usual in other cases.

471.11 Condemnation proceedings; recording of order; payment of compensation, rights of company; appeal.

Sec. 11. A certified copy of the order so to be made shall be recorded in the office of the register of deeds for said county, in the book of deeds; and thereupon, on the payment or deposit by the said company of the sum to be paid as compensation for such land, franchise, or other property, and for costs, expenses, and council fees as aforesaid, and as directed by said order, the company shall be entitled to enter upon and take possession of and use the said land, franchise, and other property for the purpose of its incorporation; and all persons who have been made parties to the proceedings, either by publication or otherwise, shall be divested and barred of all right, estate, and interest in such real estate, franchise, or other property, until such right or title shall be again legally vested in such owner; and all real estate or property whatsoever acquired by any company under and in pursuance of this act, for the purpose of its incorporation, shall be deemed to be acquired for public use: Provided, The said sum to be paid as damages and compensation, and costs, expenses, and counsel fees as aforesaid, shall be paid by the company, or deposited as provided in this act, within 60 days after the confirmation of said report by the said court; and in case said company fail or ne-

glect so to do, such failure or neglect shall be deemed as a waiver and abandonment of the proceedings to acquire any rights in said land or property. Within 20 days after the confirmation of the report of the commissioners or jury, as above provided for, either party may appeal, by notice in writing to the other, to the supreme court, from the appraisal or report of the commissioners or jury; such notice shall specify the objections to the proceedings had in the premises, and the supreme court shall pass on such objections only, and all other objections, if any, shall be deemed to have been waived; such appeal shall be heard by the supreme court at any general or special term thereof, on notice thereof being given according to the rules and practice of the court. On the hearing of such appeal, the court may direct a new appraisal before the same or new commissioners or jury, in its discretion. The second report shall be final and conclusive upon all parties interested. If the amount of the compensation to be allowed is increased by the second report, the difference shall be a lien on the land appraised, and shall be paid by the company to the parties entitled to the same, or shall be deposited as the court shall direct; and in such case, all costs of the appeal shall be paid by the company; but if the amount is diminished, the difference shall be refunded to the company by the party to whom the same may have been paid, and judgments therefor and for all costs of the appeal shall be rendered against the party so appealing. On the filing of the report, such appeal, when made by any claimant of damages, shall not affect the said report as to the right and interests of any party, except the party appealing; nor shall it affect any part of said report in any case, except the part appealed from; nor shall it affect the possession of such company of the land appraised; and when the same is made by others than the company, it shall not be heard except on a stipulation of the party appealing not to disturb such possession during the pendency of such proceedings.

Sec. 12. And for this purpose the directors of said 2 corporations may enter into an agreement under the corporate seal of each, for the consolidation of the said 2 corporations, prescribing the terms and conditions thereof, the mode of carrying the same into effect, the name of the new corporation, the number of directors thereof, and the names of those who shall be the first directors, which shall be deemed and taken to be the first election of the directors of the consolidated company, which number shall not be less than 3, nor more than 13, the time and place of holding the first election of directors after the consolidation, which time shall not exceed 6 months after such consolidation has been sanctioned by the stockholders of said 2 corporations, as hereinafter provided, the number of shares of the capital stock in the new corporation; the amount of each share, which shall not exceed 100 dollars per share; also, whether the shares of the consolidated company shall be all of 1 class or shall consist of preferred

Such agreement of the directors shall not be deemed to be the agreement of the said 2 corporations until after the written consent of all the stockholders of each of said corporations has been obtained thereto: Provided, however, That where such companies are located and carry on business in the same or adjoining or adjacent towns, cities or villages in the northern peninsula of this state, such agreement shall be deemed to be the agreement of the said 2 corporations after the written consent of stockholders holding and owning 3/4 of the outstanding capital stock of each of said corporations, has been obtained thereto, or in lieu of such written consent, such agreement shall have been approved by a vote of not less than 3/4 of the outstanding capital stock of each of said corporations, at any annual or special meeting of the stockholders of said corporations. And when such agreement of the directors has been so sanctioned by the stockholders in the manner above mentioned, then such agreement of the directors shall be deemed to be the agreement of the said 2 corporations. 479.6a Change in rate, fare, charge or classification; notice; postponement of effective date; investigation; service upon agent.

Sec. 6a. No change shall be made in any rate, fare, charge, or classification, or any rule, regulation or practice affecting such rate, fare, charge, or classification, or the value of the service thereunder, specified in any effective tariff or any motor carrier for hire, except after 30 days' notice to the commission and to the public, filed and posted in accordance with section 6 of article 2 and section 7 of article 3. Such notice shall plainly state the change proposed to be made and the time when such change will take effect. The commission may, in its discretion, after good cause shown, allow changes upon less time than the notice herein specified or modify the requirements in this section in respect to publishing, posting and filing of tariffs, either in particular instances or by general order applicable to special or peculiar circumstances or conditions. Upon the filing with the commission by any motor carrier for hire of any tariff or supplement showing any change in rates, fares, charges, or classification, or any rule, regulation, or practice affecting such rate, fare, charge or classification, or the value of the service thereunder, it shall be lawful for the said commission and it is hereby authorized, acting upon its own initiative or upon petition, to postpone the date when such new rate, fare, charge, classification, rule, regulation, or practice shall become effective to such time not to exceed in all 60 days as shall give the said commission opportunity to investigate the reasonableness of such proposed rate, fare, charge, classification, rule, regulation, or practice, and it shall thereupon be lawful for said commission and it is hereby authorized to proceed with an investigation upon at least 10 days' notice to said motor carrier as to the reasonableness of said rate, fare, charge, classification, rule, regulation, or practice, and such investigation shall take precedence over all matters of a different nature pending before the commission under this act. Except in an emergency satisfactorily shown to the commission, no petition shall be considered unless filed at least 10 days prior to the effective date of the proposed change in rate, charge, fare, or classification, rule, regulation or practice. Such petition or order shall be definite and specific and a copy shall be served upon all carriers affected at the time of filing or issuance: Provided, however, That service upon an agent who has issued and filed a tariff or schedule in behalf of such carrier or carriers shall be deemed to be due and sufficient service upon such carrier or carriers. Such petition

or order must recite the specific facts relied upon to establish that failure to postpone will work a special hardship on the petitioner, that cannot otherwise be avoided. At any hearing involving a change in a rate, fare, charge, or classification, or in a rule, regulation, or practice, the burden of proof shall be upon the carrier to show that the proposed changed rate, fare, charge, classification, rule, regulation, or practice is just and reasonable. If the carrier or carriers whose rates are attacked shall cause undue delay in the trial or disposition of the petition for suspension, or if other good and sufficient reasons shall be found to exist, then the commission may extend the postponement for a reasonable period but not to exceed 30 days further.

479.7 Report of accidents.

Sec. 7. Report of accidents. Such accidents as may be specified by the commission arising from or in connection with, the operation of any vehicle upon the public highways of this state by any motor carrier under the provisions of this act shall be reported to the commission, in such detail and in such manner, as the commission shall, by its rules and regulations, require; and the failure to report any such accident within 5 days after knowledge of the happening thereof shall be deemed a wilful refusal by the owner of the vehicle implicated to obey and comply with a rule of the commission.

HISTORY: CL 1948, 479.7.

479.8 Identification plates; confiscation.

Sec. 8. Identification plates. The commission shall furnish proper and sufficient identification plates to be firmly affixed upon each vehicle authorized to operate under the terms of this act, in addition to the regular registration or license plates required by law. The commission is hereby authorized to confiscate and take possession and custody of any such identification plates found attached to any vehicle for which they were not issued, or when the holder of any such plates has made or is making any unlawful use thereof.

HISTORY: CL 1948, 479.8.

479.9 Insurance, bonds.

Sec. 9. Insurance and bond requirements. The commission shall have full power and authority to make and shall make such insurance or bond requirements under uniform regulations as it may deem necessary adequately to protect the interests of the public.

HISTORY: CL 1948, 479.9.

479.10 Certificates and permits; expiration, renewal, penalty, revocation.

Sec. 10. All certificates or permits granted hereunder shall be made to terminate as of December 31 of the calendar year during which such certificate or permit may be issued. All common motor carriers and contract motor carriers shall make application for the renewal of their certificates or permits not before November 1 and not later than December 1 of the year in which their current certificate or permit expires. Certificate and permit holders not making application by December 1 shall be advised by the commission and given the opportunity to file their applications on or before December 31 on payment of a penalty of \$10.00. Such renewal application shall be accompanied with the required fees, proof of insurance and all other things required to be filed with the commission by law or by the rules, regulations and orders of the commission. The certificate of any common motor carrier or the permit of any contract motor carrier who is delinquent in the payment of the earned fees required by this act to be paid at the time of any renewal thereof shall be deemed canceled and terminated, on and after January 1 of the year for which application should have been made under the requirements of this section, and such common motor carrier or contract motor carrier shall be prohibited from operating any of his vehicles upon or over the highways of this state and all privileges granted him under his expiring certificate or permit shall cease. In case any applicant for renewal of a certificate or a permit fails,

otherwise than in the payment of fees, to comply in all respects with the law and the rules and regulations of the commission in connection with the filing of the application for renewal, the commission shall forthwith give specific written notice thereof to such applicant and shall require in such notice that applicant correct the matter specified within 10 days after such notice. Upon the failure of the applicant to make such correction within the time, or in case of the failure to accompany said application with the required filing fee, or in case of the failure to deposit the initial minimum vehicle fee on or before December 24 of the year in which the application is made, the certificate or permit of such applicant shall be thereby revoked without any action whatever upon the part of the commission. Except as in this section otherwise provided, the provisions in this act voiding a certificate or a permit for cause shall be self-executing and shall not require any affirmative act on the part of the commission, and the commission is expressly prohibited from extending and shall not have any power to extend the privilege or permit nor to allow any such carrier to engage in any operation over the public highway of any nature whatsoever. In no case shall the revocation of any certificate or a permit release any motor carrier from liability for accrued fees. Upon full compliance with the requirements with respect to the filing of the application, the certificate or permit shall issue for the succeeding calendar year, subject to all the provisions of this act.

The holder of any certificate or permit under this act may add equipment at any time, but when adding equipment subject to a privilege fee prescribed by this act, the holder of a certificate or permit shall file an ex parte application in such form as the commission may require and pay for each unit of equipment added the fee prescribed in section 2 of article 4. No notice of hearing on such application shall be required and no public hearing shall be held thereon. Whenever the holder of any certificate or permit, excepting a certificate or permit that authorizes the transportation of household goods while such household goods are being transported, shall by lease, contract or any arrangement other than outright purchase, augment his equipment, such lease, contract or arrangement shall be in writing and of such a character so as to vest in such holder exclusive possession and control of the vehicle under such lease or arrangement for the entire term of such lease or arrangement. Any operation of such vehicle shall be conducted under the exclusive supervision, direction and control of such holder. Such vehicle shall at all times be operated only by persons who are employees of such holder who stand in relation to such holder as employee to employer. The aforesaid relationship of employee and employer shall not be required between drivers and such holder of certificate or permit in those instances where the holder augments his equipment under lease, contract or other arrangement with another carrier who furnishes such equipment with a driver and when such latter carrier maintains such employer and employee relationship with said driver pursuant to specific approval and authority granted by the commission. Any certificated or permitted unit of equipment may be withdrawn from service at any time by surrendering to the commission the identification plate allocated to such unit at the time it was certificated or permitted.

(10) The provisions of subsections (1), (4), (5) and (6) of this section shall not apply to or be required of or between movers of household goods, when such equipment is used to transport household goods as defined by the commission.

479.20 Motor carrier act; appeal to circuit court; proceedings stayed; rescission of order; appeal to supreme court.

Sec. 20. Any party to a cause before the commission under the terms of this act may within 30 days from the issuance of any order therein and notice thereof appeal therefrom by filing an action in the circuit court in chancery for the county of Ingham against the commission as defendant to vacate and set aside any such order. The complaint shall specify the grounds upon which it is claimed that the order or the things granted or ordered to be done are unreasonable or unlawful. Upon the service of a copy of the complaint and a subpoena the commission shall file its answer and the matter be at issue and stand ready for hearing upon 10 days' notice by either party. On

leave of the court any interested party may file an answer to said complaint. Any party to such suit may introduce original evidence in addition to the transcript of evidence offered to said commission and the said circuit court in chancery is hereby given jurisdiction of such suits and empowered to affirm, vacate, or set aside the order of the commission in whole or in part and to make such other order and decree as the court shall decide to be in accordance with the facts and the law. All suits brought under this section shall have precedence over any civil cause of a different nature pending in such court, and the said circuit court shall always be deemed open for the hearing thereof, and the same shall proceed, be tried and determined as other chancery suits. No injunction shall issue suspending or staying any order of the commission except upon application to the said circuit court in chancery or to the judge thereof, notice to the commission having been given and hearing having been had thereon. If, upon the trial of such action, evidence shall be introduced which is found by the court to be different from that offered upon the hearing before the commission, or additional thereto, the court, before proceeding to render judgment, unless the parties in such action stipulate in writing to the contrary, shall transmit a copy of such evidence to the commission, and shall stay further proceedings in said action for 15 days from the date of such transmission. The cost of such transcript, witness fees and attorney fees may be taxed in circuit court the same as other costs are taxed. The commission may, upon receipt and consideration of such evidence alter, modify, amend or rescind its order and shall report its action thereon to the court within 10 days from the receipt of such evidence. If the commission shall rescind its order complained of then the action shall be dismissed; if it shall alter, modify or amend the same, such altered, modified, or amended order shall take the place of the original order complained of and judgment shall be rendered thereon as though made by the commission in the first instance. If the original order shall not be rescinded or changed by the commission, judgment shall be rendered upon such original order. Either party to said action within 60 days after service of a copy of the order or judgment of the court may appeal to the supreme court, which appeal shall be governed by the statutes governing chancery appeals. When the appeal is taken the case shall be brought to a hearing in the same manner as other cases on the calendar or if no term is then pending shall take precedence of cases of a different nature except criminal cases at the next term of the supreme court. In all actions under this section the burden of proof shall be upon the complainant to show by clear and satisfactory evidence that the order of the commission complained of is unlawful or unreasonable, as the case may be. In all actions and proceedings in court arising under this act, all such process shall be served and the practice and rules of evidence shall be the same as in actions in equity, except as otherwise herein provided.

All appeals from orders of the Michigan public utilities commission initiated under the provisions of section 462.26 of the Compiled Laws of 1948 and now before the Ingham county circuit court or the supreme court shall not be dismissed, terminated, or abated, but shall be continued, carried on and completed under the provisions of this section exactly as though this section had been in effect at the time such appeals were taken and the appeals initiated under the provisions of this section. The Michigan public service commission shall be substituted as defendant in place of the Michigan public utilities commission in all such cases.

Sec. 1. Any number of persons, not less than 3, may be formed into a corporation for the purpose of constructing a canal or harbor, or improving the navigation of any river or stream in the upper peninsula and in Branch and Macomb counties, by dredging out the channel, making a new entrance, and constructing canals to straighten the same, or by any of said methods, by complying with the following requirements. Notice shall be given in at least 1 newspaper printed in each county where the said canal or improvement is proposed to be constructed, at least 2 weeks, of the time and place or places where books for subscribing to the stock of such company will be opened, and of the estimated cost of said canal or improvement, which notice may be signed by any 2 persons proposing to enter upon the construction of said canal or improvement. Joint Resolution 20 of 1897, p. 438, transfers to the general fund in the state treasury a balance to the credit of the canal and authorizes the board of control to dispose of certain tools and machinery.

If upon such hearing, the board shall be of opinion that the construction of the proposed improvement will be a public benefit, and that the company is a proper one to make the same, they shall endorse upon such map or plan their approval thereof, and their assent to the construction of the improvement proposed, and shall also fix the time within which the same shall be completed by the company. Said board of control may, in their discretion, alter or amend such plan or plans before approving the same, or may, at any time after such approval consent to the alteration of such plans, upon the petition of the company which shall have presented the same after the publication of a notice of the hearing of said petition in the same manner required in this section upon the hearing of the original application.

All adjournments shall be publicly announced. The court or the clerk thereof may issue writs of subpoena to compel the attendance of witnesses before the court or before the said commissioners. 486.252h Condemnation proceedings; entry for survey, liability for damages; petitioner's occupancy, prerequisites, hearing.

Sec. 2h. Following the filing of any petition for condemnation of property hereunder, the petitioner may enter upon the land for the purpose of surveying and locating more accurately the premises or interests sought to be acquired. Such entry and survey shall not constitute a cause of action in favor of the owner, except for actual damages, if any, to the property resulting from such entry and survey, or for injuries resulting from negligence, wantonness or malice of petitioner, his employees, contractors or agents. If the necessity of taking has been determined by the commissioners in favor of petitioner, and the initiatory petition for condemnation has given notice, by appropriate allegation and the prayer thereof, that petitioner will in such event apply to the court for an order authorizing petitioner to occupy the premises sought, pending further proceedings therein, the court shall thereupon entertain proof by affidavit or otherwise as to the reason for requiring an immediate or speedy occupation. Upon the hearing of such issue, the commissioners shall make a preliminary determination or estimate of the amount of damages or just compensation likely to accrue from such condemnation, and the court shall grant or refuse an order authorizing petitioner to occupy the premises according to the merits of the case: Provided, however, That such order shall not be granted unless petitioner shall tender a cash amount into the custody of the court, or an indemnity bond to the owners, with sureties in a penal sum at not less than double the amount of damages estimated as likely to result from the condemnation, but such amount shall be determined only for the purpose of the order authorizing interim possession, and shall not be binding upon the commissioners, or admissible in evidence on the final hearing as to just compensation. In case such order is granted, the petitioner shall proceed with diligence to carry the proceedings to final decree.

486.252i Condemnation proceedings; appeals; petitioner's possession pending appeal, bond; perfected appeal, effect of withdrawal of final award.

Sec. 2i. Either party to the proceedings who considers himself aggrieved by any final order or determination thereof, may appeal therefrom to the circuit court for said county in the same manner as is now provided for appeals from probate courts to circuit courts. The right of appeal provided for herein shall be exclusive of other methods of review. No appeal shall prevent the petitioner from taking possession or continuing in possession if the petitioner shall have first filed a bond or deposit equal to twice the amount of the award: Provided, however, That the probate court in its discretion may require petitioner to deposit an additional and reasonable sum as indemnity for any further damages or costs which may be awarded as a result of such appeal. The defendant may, upon obtaining an order of the probate court or of the circuit or supreme court, if an appeal has been perfected, be authorized to withdraw the amount of the final award of just compensation paid into court for him, by filing a set-

isfaction of the judgment or a receipt therefor, and an abandonment of all defenses to the action except his claim to greater compensation based upon alleged errors of law in such proceedings.

Unless the institution appears at the hearing by a duly authorized representative, it shall be deemed to have consented to the issuance of the cease and desist order. Such order shall become effective upon service upon the institution and, unless set aside, limited or suspended by a court in proceedings authorized by subsection (2), shall remain effective and enforceable pending the completion of the administrative proceedings pursuant to such notice and until such time as the commissioner shall dismiss the charges specified in such notice or if a cease and desist order is issued against the institution, until the effective date of such order.

(2) Within 10 days after the institution has been served with a temporary cease and desist order, the institution may apply to the circuit court for the county in which the home office of the institution is located for an injunction setting aside, limiting or suspending the enforcement, operation or effectiveness of the order pending the completion of the administrative proceedings pursuant to the notice of charges served upon the institution under subsection (1) of section 35 and the court shall have jurisdiction to issue the injunction.

Unless the director, officer or other person appears at the hearing in person or by a duly authorized representative, he shall be deemed to have consented to the issuance of an order of removal or prohibition. In the event of consent, or if upon the record made at the hearing the commissioner finds that any of the grounds specified in the notice have been established, the commissioner may issue such orders of suspension or removal from office, or prohibition from participation in the conduct of the affairs of the institution, as he deems appropriate. The order shall become effective at the expiration of 30 days after service upon the institution and the director, officer or other person concerned except in the case of an order issued upon consent, which shall become effective at the time specified therein. Sec. 77. (1) There shall be issued to every shareholder in a bank certificates of stock which shall be transferable on the books of the bank in such manner as may be prescribed in the bylaws or articles of incorporation. A transfer of stock shall not be valid against the bank, except with the consent of the board of directors, so long as the registered holder thereof is liable as principal debtor, surety or otherwise to the bank for any debt which is due and unpaid.

Sale of shares to pay indebtedness.

(2) Whenever the registered holder of stock of a bank is liable to it as principal debtor, surety or otherwise for any debt which is due and unpaid, the directors of the bank may sell a sufficient amount of the stock of the delinquent shareholder in the same manner and with the same effect as provided in section 201 in the case of an un-

paid assessment on the stock of the bank. Nothing contained in this section shall prevent the bank from bringing proceedings to recover the entire amount of the indebtedness at any time before any such sale or to recover the balance of the debt and costs after the proceeds of sale have been applied against the debt and costs or to recover the balance of the debt after the cancellation of the stock.

Pledge or sale prior to maturity.

(3) The rights of any bank in its stock under this section shall be subject to any pledge, sale or other transfer of the stock which is made prior to the maturity of any indebtedness of the registered holder thereof to the bank and of which the bank has knowledge prior to the maturity, whether or not the stock was transferred on the books of the bank. Any stock of a bank which is pledged, sold or otherwise transferred prior to the maturity of any indebtedness of the registered holder thereof to the bank and of which pledge, sale or other transfer the bank has knowledge prior to the maturity, may be transferred on the books of the bank after the maturity without the consent of the board of directors of the bank. The rights of any bank in its stock under this section, including the limitation on transferability if the registered holder is liable to the bank for any debt which is due and unpaid, shall not be applicable with respect to any stock duly listed on any stock exchange.

Every certificate hereafter issued shall be signed by the president or vice president and cashier or assistant cashier of the bank or by such other officers as the bylaws of the bank shall provide and shall be sealed with the seal of the bank.

Facsimile signature or seal.

(5) Notwithstanding any law to the contrary, where any share certificate is signed by a transfer agent or by a transfer agent and a registrar, the signature of any officers of the bank required thereon or the seal of the bank may be a facsimile. If any officer who has signed share certificates or whose facsimile signature has been used thereon ceases to be such officer, whether because of death, resignation or otherwise, before the certificate has been delivered by the bank, the certificate nevertheless, may, be adopted by the bank and delivered as though the person who signed it or whose facsimile signature has been used thereon had not ceased to be such officer.

487.379 Capital stock; increase, procedure; employee stock options.

Sec. 79. (1) With the approval of the commissioner, and by a vote of shareholders owning 2/3 of each class of the stock entitled to vote, a bank may increase its capital stock to any sum approved by the commissioner, either by an increase in the par value of the existing stock or by the issuance of new stock, including preferred stock. An increase in capital shall not be valid until the whole amount of the increase is paid in and notice thereof, duly acknowledged before a notary public by the president, vice president, cashier or assistant cashier of the bank, has been transmitted to the commissioner and his certificate obtained specifying the amount of the increase in capital

stock and that it has been duly paid in as a part of the capital of the bank. The certificate shall be conclusive evidence that the stock has been duly and validly issued. In the case of the issuance of new stock, in voting upon the increase of capital stock, the shareholders entitled to vote shall have power, by the same statutory majority, to fix the value of, and the price at which the increase of the capital stock shall be subscribed and paid for by the shareholders, but not less than par, as well as the time and manner of the subscription and payment; and by the same vote to authorize the directors of the bank to sell, at not less than the price so fixed, any part of the increase not subscribed by the shareholders, after they have had a reasonable opportunity to make subscription of their proportionate shares thereof.

(2) Notwithstanding the provisions of this section, any bank, with the approval of the commissioner and by a vote of shareholders owning $\frac{2}{3}$ of each class of the stock entitled to vote, for the stated purpose of providing stock options for 1 or more employees, may increase its capital stock in an aggregate par value amount not to exceed at any one time 5% of the par value of its then outstanding common capital stock. The additional capital stock, when duly authorized, may be issued by the bank from time to time for such purpose but for no other purpose, as options are exercised and payment for the stock is received, free from any preemptive rights to subscribe for stock.

HISTORY: New 1969, p. 693, Act 319, Imd. Eff. Aug. 20.

487.381 Capital stock; reduction, procedure.

Sec. 81. (1) By a vote of shareholders owning $\frac{2}{3}$ of the stock entitled to vote of such bank, a bank may reduce its capital stock to an amount not less than that required by this act to authorize the formation of such a bank. The reduction may be accomplished by a reduction in the par value of the existing stock or by a reduction in the number of the shares of such stock. A reduction shall not be made until the amount of the proposed reduction has been reported to the commissioner and has been approved by him.

(2) The approval of the commissioner shall be based upon a finding by him that the security of existing creditors of the bank will not be impaired by the proposed reduction. Nothing herein contained shall operate in any way to discharge any bank which may decrease its capital stock from any obligation or demand that may be due from the bank.

(3) Retirement of preferred stock in accordance with the provisions of the articles of incorporation shall not be deemed to be a reduction of capital under the provisions of this section.

(4) A shareholder shall not be entitled to any distribution of cash or other assets by reason of any reduction of the common capital of any bank unless the distribution has been approved by the commissioner and by the affirmative vote of at least $\frac{2}{3}$ of the shares of each class of stock outstanding, voting as classes.

HISTORY: New 1969, p. 693, Act 319, Imd. Eff. Aug. 20.

487.385 Payment of dividends; restrictions.

Sec. 85. (1) From time to time, the board of directors of a bank may declare and pay dividends on the common stock of the bank subject to the following restrictions:

(a) A cash dividend or dividend in kind shall not be declared or paid unless the bank will have a surplus amounting to not less than 20% of its capital after the payment of the dividend.

(b) A cash dividend or dividend in kind shall not be declared by any bank except out of net profits then on hand after deducting therefrom its losses and bad debts. All debts due the bank on which interest is past due and unpaid for a period of 6 months, unless the debts are well secured and in process of collection or the debts constitute

claims against solvent estates in probate, shall be considered bad debts within the meaning of this section.

(c) A cash dividend or dividend in kind shall not be declared or paid until the cumulative dividends on preferred stock, if any, have been paid in full.

(d) If at any time the surplus of a bank is less than the amount of its capital, before the declaration of a cash dividend or dividend in kind, it shall transfer to surplus not less than 10% of its net profits of the preceding half-year in the case of quarterly or semiannual dividends, or not less than 10% of its net profits of the preceding 2 consecutive half-year periods in the case of annual dividends. For the purpose of this section, any amounts transferred to a reserve account for the retirement of any preferred stock of any bank out of its net profits for such periods shall be deemed to be additions to its surplus, if, upon the retirement of the preferred stock, the amounts so credited into the retirement reserve may then properly be carried to surplus. In any such case the bank shall be obligated to credit to surplus the amounts transferred into the retirement reserve on account of the preferred stock as such stock is retired.

(e) For the purpose of this section the term "net profits" means the remainder of all earnings from operations plus actual recoveries on loans and investments and other assets, after deducting from the total thereof all operating expenses, actual losses, accrued dividends on preferred stock, if any, and all taxes.

(f) Without regard to the foregoing limitations of this section, any bank, with the approval of the commissioner, and by vote of shareholders owning 2/3 of the stock entitled to vote, may increase its capital stock by declaration of a stock dividend on such capital stock. After the increase the surplus of the bank shall be at least equal to 20% of the capital stock as increased. No such increase shall be effective until a certificate of such declaration of dividend, signed by the president, vice president, cashier or assistant cashier of the bank and duly acknowledged before a notary public, shall have been transmitted to the commissioner and his certificate obtained specifying the amount of the increase of capital stock by stock dividend and his approval thereof.

(2) Any bank may pay dividends on its preferred stock at such rate as may be applicable without regard to any of the limitations of this section.

Special meetings of shareholders shall be called and held as provided in the bylaws of the bank. At any meeting, each shareholder entitled to vote shall be entitled to 1 vote for each share held by him. A shareholder may vote at any meeting of the bank by proxy in writing signed by him.

(2) Persons holding shares of the capital stock of a bank in a fiduciary capacity shall be entitled to vote the shares so held, unless the trust instrument shall contain a provision to the contrary. Persons whose shares are pledged shall be entitled to vote unless in the transfer by the pledgor on the books of the bank he has expressly empowered the pledgee to vote thereon, in which case only the pledgee or his proxy may vote the shares.

(3) A shareholder shall not vote his stock in any manner except in person or by proxy. This prohibition shall not be construed to apply to any voting trust agreement of shareholders with respect to the voting of stock, which agreement has been approved by the commissioner.

Sec. 94. (1) Each bank shall keep and maintain a stock ledger in which shall be correctly entered the name and address of each shareholder of the bank, the number of shares held by each, the date when such shareholder acquired the shares and the name of the transferor. In lieu of the foregoing requirements the board of directors of any bank may designate any corporation authorized by law to act as transfer agent or registrar of shares of corporations, to act as transfer agent or transfer agent and registrar of the shares of the bank; but the same corporation shall not be designated to act in both capacities at the same time.

(2) Within 2 calendar weeks of any demand therefor made by the commissioner, a bank shall file with the commissioner a list containing the name and address of each shareholder of the bank together with the number of shares held by each according to its records as of the close of business on the date of issuance of the demand. Within 2 calendar weeks of any demand therefor made for proper cause by any shareholder being the record owner of at least 5% of the issued shares of the bank or on the demand for proper cause of any person representing any group who are the record owners of at least 5% of the issued shares of the bank, the bank shall prepare and furnish the requestor a list containing the name and address of each shareholder of the bank together with the number of shares held by each according to its records as of the close of business on the date of receipt of such demand.

(1) The affairs of a bank shall be managed by a board of not less than 5 nor more than 25 directors who shall be elected in the first instance by the incorporators at a meeting held before the bank is authorized to commence business and afterwards at the annual meeting of the shareholders, or, if for any reason an election is not held at that meeting or at an adjournment thereof, then at any subsequent meeting called for that purpose of which notice is given as provided in the bylaws of the bank. The board of directors may fill any vacancy which occurs in the board by death, resignation or otherwise for the current year. Subject to limitations as to numbers, the shareholders may elect not to exceed 2 less than the full board and the resulting unfilled directorships shall be considered as vacancies and may be filled thereafter by the board of directors. Directors shall hold office until their successors are elected and have qualified.

(2) The board of directors shall meet at least once each month for the purpose of carrying out their duties under this section. It shall cause to be spread upon the records of the bank, in the record book which shall be kept for that purpose, the minutes of each meeting and all its actions thereat. The minutes shall be signed by the presiding officer and the secretary of the meeting. A majority of the board of directors constitutes a quorum for the transaction of business.

487.399 Directors; purchase from or sales to; disclosure.

Sec. 99. (1) A bank may contract for, or purchase from, any of its directors, or from any firm of which any of its directors is a member, any securities or other property, only when such purchase is made in the regular course of business upon terms not less favorable to the bank than those offered by others, or when such purchase is authorized by a majority of the board of directors not interested in the sale of such securities or property, which authority shall be evidenced by the affirmative vote or written assent of such directors. When any director, or firm of which any director is a member, acting for or on behalf of others, sells securities or other property to a bank, the commissioner by rule may require a full disclosure to be made, in any or all cases, on forms prescribed by him, of all commissions or other considerations received. Whenever a director or firm, acting in his or its own behalf, sells securities or other property to the bank, the commissioner, by rule, may require a full disclosure of all profits realized from such sale.

(2) A bank may sell securities or other property to any of its directors, or to a firm of which any of its directors is a member, in the regular course of business on terms not more favorable to the director or firm than those offered to others, when the sale is authorized by a majority of the board of directors of a bank evidenced by their affirmative vote or written assent. 487.401 Directors, officers and employees; indemnification and reimbursement for expense arising out of action, suit or proceeding.

Sec. 101. Any person may be indemnified and reimbursed by any bank for expenses reasonably incurred by him and liabilities imposed upon him in connection with or arising out of any action, suit or proceeding, civil or criminal, or threat thereof, in which he may be involved by reason of his being or having been a director, officer or employee of the bank or of any firm, corporation or organization which he served in any capacity at the request of the bank. No person shall be so indemnified or reimbursed (a) in relation to any matter in such action, suit or proceeding as to which he shall finally be adjudged to have been guilty of breach of duty as a director, officer or employee of the bank or (b) in relation to any matter in such action, suit or proceeding, or threat thereof, which has been made the subject of a compromise settlement; unless in either such case such person acted in good faith for a purpose which he reasonably believed to be in the best interests of the bank, and, in a criminal action or proceeding, in addition, had no reasonable cause to believe that his conduct was unlawful. The determination whether the conduct of such person met the standard re-

No adjudication of liability or guilt as to such person shall in itself create a conclusive presumption that he did not meet the standard of conduct required in order to justify indemnification and reimbursement. The foregoing right of indemnification and reimbursement shall not be exclusive of other rights to which such person may be entitled as a matter of law and shall inure to the benefit of his heirs, executors and administrators.

A copy of the notice shall be mailed to each shareholder of each organization at his last known postoffice address as appears from the stock records of the organizations, by registered or certified mail, at least 10 days prior to the date of the meeting. No notice by publication or otherwise shall be required if it is waived. At the meeting the agreement shall be considered and a vote by ballot, in person or by proxy, taken for the adoption or rejection of it. At the meeting each share of stock shall entitle the holder thereof to 1 vote. If the votes of shareholders of each organization representing 2/3 of the total number of shares of each class of its outstanding capital stock are cast for the adoption of the agreement, that fact shall be certified on the agreement by the cashier or assistant cashier, secretary or assistant secretary of each of the organizations under the seal thereof. All and singular the rights, interests, privileges and franchises of each of the consolidating organizations and all property, real, personal and mixed, and all debts due to any of the consolidating organizations on whatever account, shall be transferred to and vested in the consolidated organization without any deed or other transfer and without any order or other action

The title to any real estate, whether by deed or otherwise, under the laws of this state vested in either of the consolidating organizations, shall not revert or be in any way impaired by reason of this act. Nothing in this act shall be construed to impair in any manner the right of any court to remove the consolidated organization for reasons other than the fact of consolidation, and to appoint in lieu thereof a substitute trustee, executor or other fiduciary, except that such right shall not be exercised in such a manner as to discriminate against national banking associations. The consolidated organization shall file with each court or other public tribunal, agency or officer by which each of the consolidating organizations shall have been appointed in the capacity of fiduciary or agent, and in the court file of each estate, suit or proceeding in which any of them has been acting, a statement setting forth the fact of consolidation, the name of each organization participating therein, the name of the consolidated organization, its place of business and the amount of its capital and surplus.

Sec. 131. (1) Upon the affirmative votes of the shareholders representing 2/3 of the total number of shares of each class of its outstanding capital stock, a bank may be converted under the laws of the United States into a national banking association. The conversion of a bank into a national banking association shall not release the bank from its obligations to pay and discharge all the liabilities created by law or incurred by it before becoming a national banking association or any tax imposed by the laws of this state up to the date of its becoming a national banking association in proportion to the time which has elapsed since the last preceding payment therefor or any assessment, penalty or forfeiture imposed or incurred under the laws of this state up to the date of its becoming a national banking association. In such case, the articles of incorporation may be executed by a majority of the directors of the national banking association. A majority of the directors, after executing the articles of incorporation, shall have the power to execute all other papers and to do whatever may be required to complete its organization as a bank. The shares of the bank may continue to be for the same amount each as they were before the conversion; and the directors may continue to be directors of the bank until others have been elected or appointed pursuant to the laws of this state. The approval of the commissioner shall be based on an examination of the national banking association and of the proceedings had by its directors and shareholders with respect to the conversion. No conversion shall be made to defeat or defraud any of the creditors of such bank. in and to all property of whatsoever kind, whether real, personal or mixed, and things in action, and every right, privilege, interest and asset of any conceivable value or benefit then existing, belonging or pertaining to it, or which would inure to it, shall immediately by act of law and without any conveyance or transfer and without any further act or deed, be vested in and become the property of the converted organization, which shall have, hold and enjoy the same in its own right as fully and to the same extent as it was possessed, held and enjoyed by the converting organization. The converted organization shall be deemed to be a continuation of the entity and of the identity of the converting organization. All the rights, obligations and relations of the converting organization to or in respect to any person, estate, creditor, depositor, trustee or beneficiary of any trust, and in, or in respect to, any executorship or trusteeship or any other trust or fiduciary function, shall remain unimpaired. The converted organization shall succeed to all such rights, obligations, relations and trusts, and the duties and liabilities connected therewith, and shall execute and perform each and every trust and relation in the same manner as if the converted organization had itself assumed the trust or relation and the obligations and liabilities connected therewith. If the converting organization is acting as administrator, coadministrator, executor, coexecutor, trustee or cotrustee of or in respect to any estate or trust being administered under the laws of this state, such relation, as well as any other or similar fiduciary relations, and all rights, privileges, duties and obligations connected therewith shall remain unimpaired and shall continue into and in the converted organization from and as of the time of taking effect of the conversion, irrespective of the date when any such relation may have been created or established and irrespective of the date of any trust agreement relating thereto or the date of the death of any testator or decedent whose estate is being so administered. Nothing done in connection with the conversion, in respect to any executorship, trusteeship or similar fiduciary relation, shall be deemed to be or to effect under the laws of this state a renunciation or revocation of any letters of administration or letters testamentary pertaining to such relation nor a removal or resignation from any such executorship or trusteeship or other fiduciary relationship nor shall the same be deemed to be of the same effect as if the executor or trustee or other fiduciary had died or otherwise become incompetent to act.

(2) A bank or national banking association resulting from a conversion under either section 131 or 133 shall have the right, notwithstanding any of the requirements, restrictions and limitations of section 171 to the contrary, to retain and continue to operate any and all branches of the converting organization which were in lawful operation immediately prior to conversion, without being required to establish or reestablish any branch or branches pursuant to section 171 and irrespective of whether any such branch or branches could, at the time the conversion becomes effective, have been established or reestablished as a branch or branches of such converting or converted organization, consistently with the requirements, restrictions and limitations of section 171.

A branch facility shall not be established in any city or village having a population of more than 1,000. The operation of a branch facility in a city or village shall not preclude any state or national bank from establishing and operating a branch in the city or village, subject to the provisions of section 171. The authority of a bank to establish and operate a branch facility shall be revoked automatically when any state or national bank or branch thereof begins operating in the city or village in which the branch facility is located. Notice of the hours, days and periods of the year during which such branch facility is open for the transaction of business with the public shall be posted conspicuously in the office lobbies of both the branch facility and parent bank and shall be kept posted, except at such times as the branch facility is closed for a period of more than 1 week.

In all cases when application is made to any court in this state for the appointment of any trustee, receiver, executor, administrator or guardian of any minor, incompetent person, mental incompetent or any other person subject to guardianship, the court may appoint such bank, with its consent, to hold such office. The accounts of the bank as trustee, receiver, conservator, liquidating agent, assignee, administrator, executor or guardian shall be regularly settled and adjusted by the proper officer or tribunals. (d) To exercise by its board of directors or duly authorized officers or agents, subject to law, all such incidental powers as are necessary to carry on a trust business.

487.496 Obligation limitations of any one borrower.

Sec. 196. (1) The total obligations to any bank of any one customer which includes an individual or any legal entity, at no time shall exceed 10% of the capital and surplus of the bank, except that upon approval by 2/3 vote of its board of directors such limit may be increased to not to exceed 20% of the capital and surplus of such bank. The term "obligations" means the direct liability of the maker or acceptor of paper discounted with or sold to the bank and the liability of the indorser, drawer or guarantor who obtains a loan from or discounts paper with or sells paper under his guaranty to the bank and includes in the case of obligations of a copartnership or association, the obligations of the several members thereof and in the case of obligations of a corporation, all obligations of all subsidiaries thereof in which the corporation owns or controls a majority interest. If the commissioner determines at any time that the interests of a group of more than 1 person, copartnership, association or corporation are so interrelated that they should be considered as a unit for the purpose for which credit was extended, the total indebtedness of that group acquired at any time shall be combined and deemed indebtedness acquired from 1 customer in applying the limitations of sections 196 to 198. A bank shall not be deemed to have violated sections 196 to 198 solely by reason of the fact that the indebtedness of a group then held exceeds the limitations of sections 196 to 198 at the time of a determination by the commissioner that the indebtedness of that group shall be combined but if required by the commissioner, the bank shall dispose of indebtedness of the group in the amount in excess of the limitations of sections 196 to 198 within such reasonable time as shall be fixed by the commissioner.

(2) Such limitations shall be subject to the exceptions as set forth in sections 197 and 198.

- (a) Obligations as indorser or guarantor of notes, other than commercial or business paper excepted under subdivision (b) of section 197, having a maturity of not more than 6 months and owned by the customer indorsing and negotiating the same, shall be subject to a limitation of 25% of such capital and surplus.
- (b) Obligations of any customer, in the form of notes or drafts secured by shipping documents, warehouse receipts or other such documents transferring or securing title covering readily marketable nonperishable staples when the property is fully covered by insurance, if it is customary to insure the staples, shall be subject to a limitation of 25% of such capital and surplus, when the market value of the staples securing the obligations is not at any time less than 115% of the face amount of the obligation and to

an additional increase of limitation of 5% of such capital and surplus for each increase of 5% of the market value in relation to the face amount of the obligation, but no loan shall exceed 50% of capital and surplus. The exception allowed in this subdivision shall not apply to obligations of any one customer arising from the same transactions or secured upon the identical staples for more than 10 months.

Obligations arising out of the discount by dealers in dairy cattle of paper given in payment for dairy cattle, which bear a full recourse indorsement or unconditional guarantee of the seller and are secured by the cattle being sold, shall be subject to a limitation of 25% of capital and surplus.

(e) Obligations of any customer in the form of notes secured by not less than a like amount, at market value, of direct obligations of the United States or obligations guaranteed fully as to principal and interest by the United States, except to the extent permitted by rules prescribed by the commissioner, shall be subject to a limitation of 25% of capital and surplus.

(f) Obligations as indorser or guarantor of negotiable or nonnegotiable installment consumer paper which carries a full recourse indorsement or unconditional guarantee by the customer transferring the same, shall be subject to a limitation of 25% of capital and surplus. If the bank's files or the knowledge of its officers of the financial condition of each maker of the obligations is reasonably adequate, and upon certification by an officer of the bank designated for that purpose by the board of directors of the bank, that the responsibility of each maker of the obligations has been evaluated and the bank is relying primarily upon the maker for the payment of the obligations, the limitations as to the obligations of each maker shall be the sole applicable loan limitation. The certification shall be in writing and shall be retained as part of the records of such bank.

Sec. 201. (1) Every bank whose capital, in the opinion of the commissioner, shall have become impaired by losses or otherwise, within 2 months after receiving notice thereof from the commissioner, shall meet the deficiency in the capital by an assessment upon the shareholders pro rata on the amount of capital stock held by each. If any bank fails to restore its capital as provided by law for 2 months after receiving notice from the commissioner or, within the same period, fails to take steps to liquidate its business and affairs, a receiver may be appointed for the bank in accordance with the provisions of this act. The commissioner, in his discretion, may grant such exten-

sions of time as he deems advisable in order to allow the bank to meet the deficiency in the capital.

(2) If any part of the capital of a bank consists of preferred stock, the determination of whether or not the capital of the bank is impaired and the amount of such impairment shall be based upon the par value of its stock even though the amount which the holders of the preferred stock shall be entitled to receive in the event of retirement or liquidation shall be in excess of the par value of the preferred stock.

(3) The directors of every bank whose capital has become impaired by losses or otherwise shall levy within the 2 months' period an assessment upon the stock of the bank to repair the deficiency, and shall give notice of the action of the commissioner and the amount of the assessment which each shareholder must pay for the purpose of making good the deficiency to each shareholder by written or printed notice mailed to the shareholder at his last known address as appears from the records of the bank or served personally upon him.

(4) If the assessment is levied by the directors, and if any shareholder refuses or neglects to pay the assessment as provided in this section within 30 days from the date of mailing to the shareholder a notice of the amount to be paid by him, the directors of the bank shall sell the stock of the shareholder to the highest bidder at either public or private sale in the manner provided for the disposition of collateral pursuant to the provisions of section 9504 of Act No. 174 of the Public Acts of 1962, being section 440.9504 of the Compiled Laws of 1948.

(5) A sale of stock as provided in this section shall effect an absolute cancellation of the outstanding certificates evidencing the stock so sold and shall make same null and void, and new certificates shall be issued by the bank to the purchaser thereof. Out of the proceeds of the stock so sold, the directors shall pay the necessary costs of sale and the amount of assessment levied thereon and the balance if any shall be paid to the person whose stock has been sold.

(6) The holders of preferred stock shall not be liable for assessments to restore impairment in the capital of a bank.

Sec. 207. (1) A bank which is not a member of the federal reserve system shall maintain at all times a reserve fund in an amount as fixed from time to time by the commissioner not in excess of the aggregate of 14% of demand deposits and 10% of

time deposits and not less than the aggregate of 7% of demand deposits and 3% of time deposits.

(2) The amount of such reserve for each day shall be computed on the basis of average daily deposits covering such bi-weekly or shorter periods as fixed by rule of the commissioner.

(3) Not more than 90% of the reserve required to be maintained against time and savings deposits by this section may consist of obligations of the United States or in obligations unconditionally guaranteed both as to principal and interest by the United States, and any such obligations maintained in such reserve shall be owned absolutely by the bank and shall not be pledged, assigned or hypothecated in any manner. The value of the obligations which constitute a part of a bank's reserve fund shall be computed at the par value thereof. The balance of the reserve fund shall consist of United States coin and currency on hand or on deposit payable upon demand with a legal depositary for reserve funds designated by the commissioner under the provisions of section 205 or with the federal reserve bank in the district in which the depositing bank is located.

The commissioner may relieve any bank from the payment of the penalty, in whole or in part, upon a showing to the commissioner of good cause for the failure of the bank to give the notice. If a bank fails to pay a penalty from which it has not been relieved, the commissioner may maintain an action in his name against the delinquent bank for the recovery of the penalty. (3) Borrowing by, or loaning to, a partnership, in which one or more executive officers of a bank are partners having either individually or together a majority interest in the partnership, is within the prohibition of this section. Nothing contained in this section shall prohibit any officer of a bank from indorsing or guaranteeing for the protection of the bank any loan or other asset which shall have been previously acquired by the bank in good faith or from incurring any indebtedness to the bank for the purpose of protecting the bank against loss or giving financial assistance to it. The commissioner shall determine what shall be deemed to be a borrowing, indebtedness, loan or extension of credit, for the purposes of this section, and prescribe rules as he deems necessary to effectuate the provisions of this section in accordance with its purposes and to prevent evasions of such provisions.

(4) This section shall not be construed as preventing any officer of any bank from being indebted to the bank upon installment debt transferred to the bank in the regular course of business by a seller of consumer goods purchased by the officer or debt resulting from the normal use by such officer of a credit card issued or caused to be issued by the bank.

489.709 Savings accounts; married women; death of minor.

Sec. 309. An association and any federal savings and loan association may issue savings accounts to any married woman or minor as the sole and absolute owner of such savings account, and pay withdrawals and act with respect to such accounts on the order of the married woman or minor. Any payment or delivery of rights to a married woman or to any minor, or a receipt or acquittance signed by a married woman or by a minor, who holds a savings account, is a valid and sufficient release and discharge of the institution for any payment or delivery of rights so made to the married woman or minor. In the case of a minor, the receipt, acquittance or other action required by the institution to be taken by the minor shall be binding upon the minor with like effect as if he were of full age and legal capacity. The parent or guardian of the minor shall not in his capacity as parent or guardian have the power to attach or in any manner to transfer any savings account issued to or in the name of the minor. In the event of the death of the minor the receipt or acquittance of either parent or of a person standing in loco parentis to the minor is a valid and sufficient discharge of such institution for any sum not exceeding in the aggregate \$1,000.00 unless the minor has given written notice to the institution not to accept the signature of the parent or person.

489.710 Savings accounts; joint accounts, payments; notice as to withdrawals, liability.

Sec. 310. When a savings account is opened in an association or a federal savings and loan association, in the names of 2 or more persons, whether minor or adult, in such form that the moneys in the account are payable to either or the survivor then the account and all additions thereto shall be the property of such persons as joint tenants. The moneys in the account may be paid to or on the order of any one of the persons during their life times or to or on the order of any one of the survivors of them after the death of any one or more of them. The opening of the account in such form, in the absence of fraud or undue influence, shall be conclusive evidence in any action or proceeding to which either the association or the survivor is a party, of the intention of all the parties to the account to vest title to the the account and the additions thereto in the survivor. By written instructions given to the institution by all the parties to the account, the signatures of more than one of the persons during their life-

times or of more than one of the survivors after the death of any one of them may be required on any check, receipt, or withdrawal order, in which case the institution shall pay the moneys in the account only in accordance with such instructions, but no such instruction shall limit the right of the survivor to receive the moneys in the account.

Payment of all or any of the moneys in the account shall discharge the institution from liability with respect to the moneys so paid, prior to receipt by the institution of a written notice from any one of them directing the institution not to permit withdrawals in accordance with the terms of the account or the instructions. After receipt of the notice, an institution may refuse, without liability, to honor any check, receipt, or withdrawal order on the account pending determination of the rights of the parties.

Sec. 312. When a savings account is held in an association or federal savings and loan association by a person residing in another state or country, the account, together with additions thereto and earnings thereon, or any part thereof, may be paid to the administrator or executor appointed in the state or country where the account holder resided at the time of death, if the administrator or executor has furnished the association with authenticated copies of his letters and of the order of the court which issued the letters to him authorizing him to collect, receive and remove the personal estate, and an affidavit by the administrator or executor that to his knowledge no letters then are outstanding in this state and no petition for letters by an heir, legatee, devisee or creditor of the decedent is pending on the estate in this state, and that there are no creditors of the estate in this state. Upon payment or delivery to such representative after receipt of the affidavit and authenticated copies, the association is released and discharged to the same extent as if the payment or delivery had been made to a legally qualified resident executor or administrator, and is not required to see to the application or disposition of the property.

489.713 Savings accounts; fiduciaries; payment to beneficiary upon death of trustee.

Sec. 313. An association or federal savings and loan association may accept savings accounts in the name of any administrator, custodian, executor, guardian, trustee or other fiduciary in trust for a named beneficiary. The withdrawal value of the account, and dividends thereon, or other rights relating thereto may be paid or delivered, in whole or in part, to the fiduciary without regard to any notice to the contrary as long as the fiduciary is living. The payment or delivery to the fiduciary or a receipt or acquittance signed by the fiduciary to whom any payment or delivery of rights is made is a valid and sufficient release and discharge of an institution for the payment or delivery so made. Whenever a person holding an account in a fiduciary capacity dies and no written notice of the revocation or termination of the fiduciary relationship has been given to an institution and the institution has no notice of any other dis-

position of the beneficial estate, the withdrawal value of the account, and dividends thereon, or other rights relating thereto, at the option of the institution, may be paid or delivered, in whole or in part, to the beneficiary. Whenever an account is opened by any person, describing himself in opening the account as trustee for another and no other or further notice of the existence and terms of a legal and valid trust than such description has been given in writing to the association, in the event of the death of the person so described as trustee, the withdrawal value of the account or any part thereof, together with the dividends or interest thereon, may be paid to the person for whom the account was thus stated to have been opened, and the account and all additions thereto shall be the property of the person. The payment or delivery to the beneficiary or designated person, or a receipt or acquittance signed by the beneficiary, or designated person, for any payment or delivery is a valid and sufficient release and discharge of an institution for the payment or delivery so made.

489.717 Gross income; expenses; legal reserve for losses; undivided profit account, apportionment; insurance; transfer to legal reserve.

Sec. 317. The gross income of every association shall be ascertained at least semiannually. From the balance of the income remaining after the payment of, or provision for, all expenses, each association at least semiannually shall transfer to a legal reserve

account, which shall be set up and maintained for the sole purpose of absorbing losses, an amount not less than 5% of such balance until the legal reserve totals not less than 12% of its savings liability. If at any time thereafter the legal reserve falls below 12% of the savings liability, credits as above provided shall be made to the legal reserve until the legal reserve again equals at least 12% of the savings liability of the association. After providing for the expense of the association, the legal reserve and other appropriate reserves, the residue of the income shall be transferred to an undivided profit account and apportioned to the credit of the savings account holders as the association in its bylaws determines. After the aforesaid apportionment has been made, the balance in the undivided profit account shall not exceed 5% of the total assets of the association at any time. Any association may establish reserves for bad debts, and with the approval of the supervisory authority, establish other reserves for specific purposes. If an association has the insurance protection provided by the federal savings and loan insurance corporation under the national housing act as amended, any portion of the legal reserve of the association may be considered as constituting a portion of the federal insurance reserve required by the federal savings and loan insurance corporation and may be set up as a federal insurance reserve account on the books of the association. At the close of any semiannual period any insured association which meets the federal insurance reserve requirements stipulated by the regulations for insurance of accounts or any uninsured association which meets the equivalent of such requirements shall be considered to have met the requirements for transfer to legal reserves provided for by this section.

Section related to declaration and distribution of dividends by savings and loan associations.

489.722 Earnings or dividends; payment; participation; declaration upon withdrawal; distribution.

Sec. 322. (1) An association may pay earnings on its savings accounts from sources available for payment of earnings at such rate and at such times and for such time or notice periods as is determined by resolution of its board of directors.

(2) All savings account holders shall participate equally in earnings pro rata to the withdrawable value of their respective accounts, except that an association may classify its savings accounts according to the character, amount or duration thereof, or regularity of additions thereto, and may agree in advance to pay an additional or different rate of earnings over and above the rate of earnings paid on all savings accounts on accounts based on such classification, and shall regulate the earnings in such manner that each savings account in the same classification receives the same ratable portion of the additional earnings.

(3) Except for accounts which shall be classified according to a specified contractual time or notice period, earnings shall be declared on the withdrawal value of each savings account at the beginning of the accounting period, plus additions thereto made during the period, less amounts previously withdrawn and noticed for withdrawal which for earnings purposes shall be deducted from the latest previous additions thereto computed at the declared rate for the time the funds have been invested, determined as next provided. The date of investment shall be the date of actual receipt by the association of an account or an addition to an account, except that if the board of directors so determines, accounts in 1 or more classifications or additions thereto received by the association on or before a date not later than the twentieth day of the month, unless the day determined is not a business day, in which case it may be the next succeeding business day, shall receive earnings as if invested on the first day of the month in which the payments were received. If the board makes such determina-

tion, it also shall determine that payments received subsequent to the determination date shall either receive earnings as if invested on the first day of the next succeeding month, or receive earnings from the date of actual receipt by the association.

(4) Notwithstanding the provisions of subsection (2), the board of directors, by resolution, may determine that earnings shall not be paid on any savings account which has a withdrawal value of a specified amount less than \$50.00 or on short term specific purpose accounts. An exception may be made and earnings paid on savings accounts opened pursuant to section 303.

(5) The directors shall determine by resolution the method of calculating the amount of any earnings on savings accounts as provided in this section and the time or times when earnings are to be declared, paid or credited.

(6) Notwithstanding the provisions of subsection (3) if by resolution of the board of directors earnings are distributed on amounts withdrawn from savings accounts, or designated classes thereof, between the dates as of which the association regularly distributes earnings on savings accounts, such earnings shall neither be distributed for any greater portion of the dividend period than that during which such amount remains in the association, nor at a rate in excess of that rate at which earnings are distributed to other accounts of the same class during the same dividend period.

HISTORY: Add. 1967, p. 115, Act 98, Imd. Eff. Jun. 21;—Am. 1969, p. 538, Act 293, Imd. Eff. Aug. 11.

489.725 Savings accounts; withdrawals; dividends, amount; order.

Sec. 325. (1) Except for accounts which shall be classified according to a specified contractual time or notice period, a savings account holder at any time may present a written application for withdrawal of all or any part of his savings accounts. No member shall have on file in any one association more than one application at a time. Every application shall request immediate withdrawal of a stated amount in accordance with this section. Any member may cancel his application at any time in whole or in part by written notice. Every association shall pay or number, date and file in the order of actual receipt every withdrawal application. Withdrawals shall be made in the order of actual receipt of applications, except as provided in this section. Upon withdrawal, an association shall pay the value of any savings account, as determined by the board of directors, but not in excess of the withdrawal value thereof. If an association so elects, at any time it may pay in full each and every application as presented. It shall not pay some in full unless it pays every application on file in full, except by paying all applications on file on the rotation plan prescribed in this section. The board of directors shall have an absolute right to pay any application not exceeding \$200.00 to any one account holder in any one month in any order. No association can obligate itself to pay withdrawals on any plan other than as provided in this act. Savings account holders who have filed written application for withdrawal remain savings account members until paid and have no greater rights as creditors. No dividends shall be declared upon that portion of an account which has been noticed for withdrawal, which for dividend purposes is required to be deducted from the latest previous additions to such account, so long as the application is on file.

(2) On the first day of each month, each application which has been on file since the first day of the preceding month and which is reached in order shall be paid, if funds are available for that purpose, \$1,000.00 on account, or in full if the amount noticed for withdrawal or the unpaid balance of such application is less than \$1,000.00. Each application for more than \$1,000.00 so paid shall be deemed refilled as if filed on that day. The limited payment on the first day of each month and the renumbering shall take place on the first day of each subsequent month as long as there are applications unpaid. At least 1/3 of the net receipts of an association during the preceding calendar month shall be applied on the first day of each month to the payment of applications

which have been on file since the first day of the preceding month. An association may apply to withdrawals an amount larger than 1/3 of the net receipts, but cannot obligate itself to do so. When an application to withdraw is reached for payment, a written notice shall be sent to the applicant by mail at his last address recorded on the books, and unless the applicant applies in person or in writing for the withdrawal within 15 days from the date of the notice, no payment on account of the application shall be made and the application shall be cancelled. Whenever the aggregate sum called for by applications for withdrawal on file exceeds 5% of the savings liability of the association, the board of directors may direct, with the approval of the supervisory authority, that the sums available each month for payment upon withdrawals shall be paid by distribution of such sums to the withdrawing members in proportion to their savings accounts to be withdrawn.

(3) At the discretion of the board of directors to meet the necessities of its savings account holders, an association may pay out to the savings account holders who have not on file applications for withdrawal not to exceed \$200.00 to any one savings account holder in any one month, but such payments shall not be made from or charged against the 1/3 of net receipts applicable to the payment of written applications for withdrawal.

(4) With the approval of the supervisory authority, the board of directors may provide that all funds available for withdrawals shall be apportioned and paid *pro rata* to all holders of savings accounts of the association not pledged for mortgage loans, without regard to applications for withdrawal, such sums to be distributed as may be provided by the board of directors, but at least twice a year.

489.727 Savings accounts; redemption.

Sec. 327. At any time funds are on hand for the purpose, the association may redeem by lot or otherwise, as the board of directors determines, all or any part of its savings accounts on a dividend date by giving 30 days' notice by certified mail addressed to the account holders at their last addresses recorded on the books of the association. No association shall redeem any of its savings accounts when the association is in an impaired condition or when it has applications for withdrawal which have been on file more than 30 days and have not been reached for payment. The redemption price of savings accounts redeemed shall be the full value of the account redeemed, as determined by the board of directors, but in no event shall the redemption price be less than the withdrawal value. If the notice of redemption has been given, and if on or before the redemption date the funds necessary for redemption have been set aside so as to be and continue to be available therefor, dividends upon the accounts called for redemption shall cease to accrue from and after the dividend date specified as the redemption date, and all rights with respect to such accounts, after the redemption date, terminate, except only the right of the account holder of record to receive the redemption price without interest.

489.791 Conversion into federal association; procedure.

Sec. 391. (1) An association conducting a savings and loan business under this act may convert itself into a federal savings and loan association, or similar mutual savings institution authorized by the United States government, upon a vote of 51% or more of the votes of the members at an annual meeting or at any special meeting called to consider such action, notice of which, giving the time, place and purpose thereof shall have been mailed at least 30 days prior thereto to the supervisory authority and to each member at the member's last address as shown on the books of the association. A copy of the minutes of the proceedings of the meeting of the members, verified by the affidavit of the secretary or an assistant secretary, shall be filed in the office of the supervisory authority within 10 days after the date of the meeting. A sworn copy of the proceedings of the meeting, when filed, is presumptive evidence of the holding and action of the meeting. Within 3 months after the date of the meeting, the association shall take such action in the manner prescribed and authorized by the laws of the United States as shall make it a federal savings and loan association. There shall be filed with the supervisory authority 3 copies of the charter issued to the federal savings and loan association by the federal home loan bank board or a certificate showing the organization of the association as a federal savings and loan association, certified by the secretary or assistant secretary of the federal home loan bank board. Upon the payment of the fees prescribed by law, the supervisory authority shall note the filing

upon each of the copies and retain 1 copy in his office, file 1 copy in the office of the county clerk in the county in this state in which the principal office of the association is located and return 1 copy to the association for its files. Failure to file any such instruments with the supervisory authority shall not affect the validity of such conversion. Upon the grant to any association of a charter by the federal home loan bank board, the association receiving the charter ceases to be an association incorporated under this act and is no longer subject to the supervision and control of the supervisory authority.

(2) Upon the conversion of an association into a federal savings and loan association, the legal existence of the association does not terminate, but the federal association is deemed a continuation of the entity of the converted association and all property of the converted association, including its rights, titles and interests in and to all property of whatever kind, whether real, personal, or mixed, and things in action, and every right, privilege, interest and asset of every conceivable value or benefit then existing, or pertaining to it, or which would inure to it, immediately by act of law and without any conveyance or transfer and without any further act or deed remains and vests in the federal association into which the state association has converted itself, and the federal association shall have, hold and enjoy the same in its own right as fully and to the same extent as the same was possessed, held and enjoyed by the converting association. The federal association as of the time and the taking effect of the conversion shall continue to have and succeed to all the rights, obligations and relations of the converting association. All pending actions and other judicial proceedings to which the converting state association is a party shall not be abated or discontinued by reason of the conversion, but may be prosecuted to final judgment, order or decree in the same manner as if the conversion had not been made and the federal association resulting from the conversion may continue such action in its corporate name as a federal association. Any judgment, order or decree may be rendered for or against it which might have been rendered for or against the converting state association theretofore involved in the judicial proceedings.

(3) Any association or corporation which has heretofore converted itself into a federal savings and loan association under the provisions of the laws of the United States, and has received a charter from the federal home loan bank board, is recognized as a federal savings and loan association, and its federal charter shall be given full credence by the courts of this state to the same extent as if the conversion had taken place under the provisions of this section if there has been compliance with the foregoing requirements with respect to the filing with the supervisory authority 3 copies of the federal charter or a certificate showing the organization of the association as a federal savings and loan association. All such conversions are ratified and confirmed and all the obligations of such association which has so converted shall continue as valid and subsisting obligations of such federal savings and loan association and the title to all of the property of such an association shall be deemed to have continued and vested, as of the date of the issuance of such federal charter in such federal savings and loan association as fully and completely as if such conversion had taken place since the enactment of this act pursuant to this section.

Copies of the minutes of the proceedings of the meeting

of members, verified by the affidavit of the secretary or assistant secretary, shall be filed in the office of the supervisory authority and mailed to the federal home loan bank board within 10 days after the meeting. The verified copies of the proceedings of the meeting when so filed are presumptive evidence of the holding and action of the meeting. At the meeting at which conversion is voted upon, the members shall also vote upon the directors who shall be the directors of the state chartered association after conversion takes effect. The directors shall execute 3 copies of the petition for certificate of charter provided for in this act and 3 copies of the bylaws as provided in this act. The supervisory authority may insert in the charter certificate, at the end of the paragraph preceding the testimonium clause, the following:

“This association is organized by conversion from a federal savings and loan association.”

All the provisions regarding property and other rights contained in section 391 shall apply, in reverse order, to the conversion of a federal savings and loan association into an association organized under this act, so that the state chartered association shall be a continuation of the association entity of the converting federal association and continue to have all of its property and rights.

AN ACT to provide for the organization, operation and supervision of credit unions; and to provide for the conversion of a state credit union into a federal credit union and for the conversion of a federal credit union into a state credit union. Am. 1955, p. 469, Act 268, Imd. Eff. Jun. 29.

The People of the State of Michigan enact:

490.1 Credit unions; organization, procedure, approval of commissioner; certificate of organization, bylaws.

Sec. 1. Any 7 residents of this state may apply to the commissioner of the state banking department for permission to organize a credit union. A credit union is a cooperative society, incorporated for the twofold purpose of promoting thrift among its mem-

bers and creating a source of credit for them at legitimate rates of interest for provident purposes. A credit union is organized in the following manner:

(a) The applicants execute in duplicate a certificate of organization by the terms of which they agree to be bound. The certificate shall state:

(1) The name and location of the proposed credit union.

(2) The names and addresses of the subscribers to the certificate and the number of shares subscribed by each.

(3) The par value of the shares of the credit union which shall not exceed \$10.00 each.

(b) They next prepare and adopt bylaws for the general government of the credit union consistent with the provisions of this act, and execute the same in duplicate.

(c) The certificate and the bylaws shall be forwarded to the said commissioner of the state banking department, together with the sum of \$10.00, which sum shall be paid into the state treasury to the credit of the general fund.

(d) The said commissioner of the state banking department shall, within 30 days of the receipt of said certificate and bylaws, determine whether they conform with the provisions of this act, and whether or not the organization of the credit union in question would benefit the members of it and be consistent with the purposes of this act. The granting of a certificate of organization shall in each and every case be discretionary with the commissioner of the state banking department.

(e) Thereupon the said commissioner shall notify the applicants of his decision. If it is favorable he shall issue a certificate of approval, attached to the duplicate certificate of organization and return the same, together with the duplicate bylaws, to the applicants.

(f) The applicants shall thereupon file the said duplicate of the certificate of organization, with the certificate of approval attached thereto, with the clerk of the county within which the credit union is to do business.

(g) Thereupon the applicants shall become and be a credit union, incorporated in accordance with the provisions of this act.

In order to simplify the organization of credit unions the said commissioner of the state banking department shall, upon the passage of this act, cause to be prepared an approved form of certificate of organization and a form of bylaws, consistent with this act, which may be used by credit union incorporators for their guidance, and on written application of any 7 residents of the state, shall supply them without charge with a blank certificate of organization and a copy of said form of suggested bylaws.

Any credit union so examined shall pay a minimum examination fee of the sum of \$25.00, but no credit union shall be compelled to pay for more than 1 examination in any one year. No examination fee for the first year after issuance of its charter shall exceed \$10.00. For failure to file reports when due, unless excused for cause, the credit union shall pay to the treasurer of the state \$5.00 for each day of its delinquency. If the commissioner determines that the credit union is violating the provisions of this act, or is insolvent, the commissioner may serve notice on the credit union of his intention to revoke the certificate of approval. If, for a period of 15 days after the notice, the violation continues, the commissioner may revoke the certificate and take possession of the business and property of the credit union and maintain possession until such time as he shall permit it to continue business or its affairs are finally liquidated. He may take similar action if the report remains in arrears for more than 15 days.

Except when the bylaws of a credit union shall otherwise provide, no director, officer, or member of the credit or supervisory committee may borrow from the credit union in which he holds office beyond the amount of his holdings in shares and deposits.

A credit union, through provision in its bylaws, at its option, may permit its directors, officers, and credit and supervisory committee members to borrow in excess of their share and deposit holdings on such terms and conditions and in such amounts as the bylaws may provide. When the reserve fund equals 5 ½% of the outstanding loans, then 10% of net earnings shall be set aside in the reserve fund. When the reserve fund equals 7% of the outstanding loans no further transfer of net earnings to the reserve fund shall be required. If the reserve fund becomes less than 7% of outstanding loans to members, then the schedule of allocation to the reserve fund shall apply, until the 7% ratio of reserves to loans outstanding to members is again established.

All amounts paid on shares or as deposits of an expelled or withdrawing member, with any dividends or interest accredited thereto, to the date thereof, shall, as funds become available and after deducting all amounts due from the member to the credit union, be paid to him. (3) The commissioner of the state banking department shall determine whether the credit union is solvent. If such solvency is determined, he shall issue in duplicate a certificate to the effect that the provisions of this section relating to voluntary dissolution have been complied with.

(4) The certificate shall be filed with the county clerk of the county in which the credit union is located, whereupon the credit union shall be considered dissolved and shall cease to carry on business except for the purpose of liquidation.

(5) The credit union shall continue in existence for the purpose of discharging its debts, collecting and distributing its assets and doing all other acts required in order to wind up its business, and may sue and be sued for the purpose of enforcing such debts and obligations until its affairs are fully adjusted and wound up, for a period of 3 years.

Involuntary dissolution.

(b) The process for involuntary dissolution shall be as follows:

(1) In the event the commissioner of banking shall determine that the credit union is insolvent, the commissioner may take immediate possession of the assets of said credit union.

(2) Upon taking possession of the assets of said credit union, the commissioner may appoint a receiver for said credit union, which receiver may be an association of credit unions, or a person designated by the commissioner, and the commissioner may prescribe the amount of bond and such other terms and conditions with which the receiver must comply before entering upon his office.

(3) Upon qualifying the receiver shall take possession of said assets and proceed to liquidate the credit union, to collect all assets and distribute and pay all obligations, and distribute the remaining assets to the shareholders in accordance with their respective interests. The receiver, whether the banking commissioner or a receiver appointed by the banking commissioner, shall have full power and authority to sue and be sued, for the purpose of enforcing the debts and obligations due the credit union and do all things and perform all acts necessary to wind up the affairs of the credit union. The banking commissioner shall have power to issue such rules and regulations as he shall deem proper for the purpose of winding up the affairs of a credit union in involuntary dissolution.

(4) Upon commencement of the liquidation, a certificate shall be filed by the commissioner with the county clerk of the county in which the credit union is located indicating the commencement of liquidation, and upon the completion of the liquidation and dissolution of the credit union, the commissioner shall file with the county clerk of the county in which the credit union is located a certificate indicating that said liquidation and dissolution is complete and that the credit union has ceased to do business.

(5) A credit union shall be deemed insolvent when the share capital is 15% more than the value of the assets of the credit union as determined by an appraisal of assets made by the commissioner or other person authorized or directed by him to make such an appraisal.

(6) The powers of the commissioner under this section shall also apply to section 6 of this act.

Reorganization; continuation of business.

(c) The banking commissioner shall have the right to permit a credit union in either voluntary or involuntary dissolution because of insolvency to reorganize its affairs and continue in business, providing a majority of the members of the credit union approve a scale-down of their share balances in an amount sufficient to offset the deficit in as-

sets as determined by the commissioner, under such rules and regulations as the commissioner may establish not inconsistent with or contrary to law.

The banking commissioner shall thereupon authorize the credit union to continue its existence for the period of time stated in the resolution, or if no period is stated in the resolution, the banking commissioner shall authorize the credit union to continue its existence perpetually. 490.25 State credit union; conversion to federal credit union; property succession; transfer of rights, obligations, trusts, duties, liabilities.

Sec. 25. Any state chartered credit union, with the approval of the commissioner of the state banking department and upon the affirmative vote of 2/3 of the entire membership of the credit union, may be converted under the laws of the United States into a federal chartered credit union: Provided, however, That such conversion of the state credit union into a federal credit union shall not release such credit union from its obligations to pay and discharge all the liabilities created by law or incurred by it before becoming a federal credit union, or any tax imposed by the laws of this state up to the day of its becoming a federal credit union in proportion to the time which has elapsed since the last preceding payment therefor, or any assessment, penalty or forfeiture imposed or incurred under the laws of the state up to the date of its becoming a federal credit union. No conversion shall be made to defeat or defraud any of the creditors of such credit union. Certified copies of all proceedings had by the board of directors and members of such credit union shall be filed with the commissioner of banking of the

state of Michigan, and in addition, the credit union shall furnish a certified copy of consent or approval of the bureau of federal credit unions to such conversion if such consent or approval is required by the laws of the United States, relative to federal credit unions. One copy of such proceedings shall be filed in the office of the state banking department, and the commissioner shall certify and forward by registered mail 1 copy of the proceedings to the county clerk of the county in which such credit union is located.

When conversion becomes effective, all the property of the state credit union, including all its right, title and interest in and to all property of whatsoever kind, whether real, personal, or mixed, and things in action, and every right, privilege, interest and asset of any conceivable value or benefit then existing, belonging or pertaining to it, or which would inure to it, shall immediately by act of law and without any conveyance or transfer, and without any further act or deed, be vested in and become the property of the federal credit union, which shall have, hold and enjoy the same in its own right as fully and to the same extent as the same was possessed, held and enjoyed by the state credit union; and the federal credit union shall be deemed to be a continuation of the entity of the state credit union. All the rights, obligations and relations of the state credit union to or in respect to any person, estate, creditor, member, depositor, trust, trustee, or beneficiary of any trust, or fiduciary function shall remain unimpaired; and the federal credit union shall succeed to all such rights, obligations, relations and trusts, and the duties and liabilities connected therewith, and shall execute and perform each and every such trust and relation in the same manner as if the federal credit union had itself assumed the trust or relation and the obligations and liabilities connected therewith.

490.26 Federal credit union; conversion to state credit union; property succession; transfer of rights, obligations, trusts, duties, liabilities.

Sec. 26. Any federal credit union doing business in this state and meeting all requirements sufficient to entitle it to become a state credit union under the provisions of existing laws of this state may, with the approval of the commissioner of the state banking department and upon the affirmative vote of 2/3 of its entire membership, be converted into a state credit union: Provided, however, That such conversion shall not be in contravention of any laws of the United States. In such case the certificate of organization may be executed by a majority of the board of directors of the federal credit union and presented to the state banking department for appropriate examination and approval. A majority of the directors, but in no case less than 7, after executing the certificates of organization in triplicate, shall have the power to execute all other papers, including the adoption of bylaws for the general government of the credit union consistent with the provisions of the Michigan credit union act, and to do whatever may be required to complete its organization as a state credit union. The directors of the federal credit union may continue to be directors of the state credit union until others have been elected or appointed pursuant to the laws of this state. If the commissioner of the state banking department approves the certificate of organization as presented by the board of directors, he shall notify the applicants of his decision and shall forthwith issue a certificate of approval attached to the duplicate certificate of organization and return the same to the credit union, and such certificate shall indicate that the provisions of the laws of this state have been complied with and such credit union and all of its members, officers, and employees shall have the same rights, powers and privileges and be subject to the same duties, liabilities, and obligations in all respects, as shall be applicable to credit unions originally organized as state credit unions.

The approval of the state banking department shall be based on an examination of such credit union and the proceedings had by its directors and members with respect to such conversion and no conversion shall be made to defeat or defraud any of the creditors of such credit union. The expenses of such an examination shall be paid by the credit union, which shall be computed and paid in accordance with section 6 of this act.

When such conversion becomes effective, all the property of the federal credit union, including all its right, title, and interest in and to all property of whatsoever kind, whether real, personal or mixed, and things in action, and every right, privilege, interest and asset of any conceivable value or benefit then existing, belonging or pertaining to it, or which would inure to it, shall immediately by act of law and without any conveyance or transfer and without any further acts or deeds, be vested in and become the property of the state credit union, which shall have, hold and enjoy the same in its own right as fully and to the same extent as the same was possessed, held and enjoyed by the federal credit union; and the state credit union shall be deemed to be a continuation of the entity of the federal credit union; all the rights, obligations and relations of the federal credit union to or in respect to any person, estate, creditor, depositor, member, trustee, or beneficiary of any trust, or fiduciary function, shall remain unimpaired; and the state credit union shall succeed to all such rights, obligations, relations and trusts and the duties and liabilities connected therewith, and shall execute and perform each and every such trust and relation in the same manner as if the state credit union had itself assumed the trust or relation and obligations and liabilities connected therewith.

HISTORY: New 1968, p. 78, Act 41, Eff. Nov. 15.

490.53 Deposit or shares paid on demand.

Sec. 3. During the lifetime of all parties, a multiple-party account which provides that sums on deposit or in shares may be paid on the demand of either of 2 or more parties is presumed to belong to the parties in proportion to the net contributions by each to the sums on deposit.

HISTORY: New 1968, p. 78, Act 41, Eff. Nov. 15.

490.54 Equal undivided interests.

Sec. 4. In the absence of satisfactory proof of the net contributions, those who are parties from time to time shall be presumed to own a multiple-party account in equal undivided interests.

HISTORY: New 1968, p. 78, Act 41, Eff. Nov. 15.

490.55 Death of party; effect.

Sec. 5. The death of any party to a multiple-party account shall have no effect on the beneficial ownership of the account, other than to transfer the decedent's right to

his estate, unless the account is a survivorship account or trust account, as provided in sections 6 and 7.

HISTORY: New 1988, p. 78, Act 41, Eff. Nov. 15.

490.56 Survivorship account; death of party, ownership.

Sec. 6. A multiple-party account payable to 2 or more persons, jointly or severally, which does not expressly provide that there is no right of survivorship, though there is no mention of survivorship or joint tenancy, is presumed to be a survivorship account. At the death of a party, sums on deposit in a survivorship account belong to the surviving party or parties as against the estate of the decedent. Where there are 2 or more survivors, their respective ownerships shall be in proportion to their previous net contributions augmented by an equal share for each survivor of any interest the decedent may have owned in the account immediately before his death, plus the proceeds of insurance on decedent's life paid to the account. The right of survivorship continues between survivors.

HISTORY: New 1988, p. 78, Act 41, Eff. Nov. 15.

490.57 Trust account; beneficial ownership; death of trustee; survivorship.

Sec. 7. An account which states that a party is a trustee for 1 or more other identified persons, including but not limited to minors, is a trust account. Except where there is evidence of a trust other than as provided by the form of the account, the account and any sums withdrawn therefrom are presumed to belong beneficially to the trustee until his death. At the death of the trustee or surviving trustee any sums remaining on deposit are presumed to belong to the person or persons named as beneficiaries, if living, or to the survivor of them if 1 or more have died before the trustee. The death thereafter or any beneficiary has no effect on the equal ownership of all who survived the trustee, as no right of survivorship is presumed to attend the relationship of several beneficiaries who survive a trustee. If no beneficiary survives the trustee, the sums are presumed to belong to the estate of the last trustee to die. If 2 or more parties are named as trustees on the account, and there is no evidence of trust except as provided by the form of the account, the account is presumed to be a survivorship account as between trustees. It is presumed to be owned between trustees as provided by this act.

HISTORY: New 1988, p. 79, Act 41, Eff. Nov. 15.

490.58 Bases of presumptions; evidence to rebut; wills.

Sec. 8. The presumptions stated herein are based upon inferences of the intention of parties to multiple-party accounts arising from the form of the account and the usual expectations of people using these accounts. The presumptions are rebuttable by clear and convincing evidence of a different intention. The presumptions of survivorship are not subject to change by will but may be rebutted by a written order received by the credit union to change the form of account or directing that payment not be made in accordance with the account which is signed by a party and is received by the credit union during the party's lifetime.

HISTORY: New 1988, p. 79, Act 41, Eff. Nov. 15.

490.59 Effect of un rebutted presumptions; transfers, effect.

Sec. 9. Where not rebutted by clear and convincing evidence, the presumptions provided in this act are effective to establish beneficial ownership. Any transfers resulting from the application of these presumptions are effective by reason of the account contracts involved in this act and are not to be considered as testamentary or subject to the probate code.

HISTORY: New 1988, p. 79, Act 41, Eff. Nov. 15.

490.60 Multiple-party accounts; authority to enter; payment; inquiry; creation; joint tenant, rights.

Sec. 10. A credit union may enter into multiple-party accounts to the same extent that they may enter into single-party accounts. Any multiple-party account may be paid, on demand, to any 1 or more of the parties unless the terms of the account expressly stipulate that joint signatures are required. No credit union shall be required to inquire as to the source of funds received for deposit to a multiple-party account or to inquire as to the proposed application of any sum withdrawn from an account. Such an account may be created with any person designated by the credit union member, but no joint tenant shall be permitted to vote, obtain loans or hold office unless he is within the field of membership and is a qualified member.

HISTORY: New 1968, p. 79, Act 41, Eff. Nov. 15.

490.61 Multiple-party accounts; withdrawals; survivorship accounts, proof of death.

Sec. 11. Any sums in a multiple-party account which does not include a stipulation requiring joint signatures for withdrawals may be paid, on demand, to any party without regard to whether any other party is incompetent or deceased at the time the payment is demanded, except, if the account is one presumed to be a survivorship account under section 6 or 7 payment may not be made to the personal representative or heirs of a deceased party unless proofs of death are presented to the credit union showing that the decedent was the last surviving party.

HISTORY: New 1968, p. 79, Act 41, Eff. Nov. 15.

490.62 Trust accounts; payments.

Sec. 12. Any account payable to a trustee for another person may be paid on demand to the trustee. Unless the credit union has received written notice of the terms of any trust other than the form of the account, payment may be made to the personal representative or heirs of a deceased trustee if proof of death is presented to the credit union showing that his decedent was the survivor of all other persons named on the account either as trustee or beneficiary; and payment may be made, on demand, to the beneficiary upon presentation to the credit union of proof of death showing that the beneficiary or beneficiaries survived all persons named as trustees.

HISTORY: New 1968, p. 80, Act 41, Eff. Nov. 15.

490.63 Payments; effect; notice of change.

Sec. 13. Payment made pursuant to sections 10, 11 or 12 discharges the credit union from all claims for amounts so paid whether or not the payment is consistent with the beneficial ownership of the account as between parties, or beneficiaries, or their successors. The protection here given does not extend to payments made after a credit union has received written notice from any party who has a present right of withdrawal to the effect that withdrawals in accordance with the terms of the account should not be permitted. Unless the notice is withdrawn by the person giving it, the death of any party after notice has no effect on withdrawal rights, and the personal representative, or heirs, of the decedent must concur in any demand for withdrawal if the credit union is to be protected under this section. No other notice or any other information shown to have been available to a credit union shall affect its right to the protection provided here. The protection here provided shall have no bearing on the rights of parties in disputes between themselves or their successors concerning the beneficial ownership of funds in, or withdrawn from, multiple-party accounts.

HISTORY: New 1968, p. 80, Act 41, Eff. Nov. 15.

490.64 Right to set-off or lien.

Sec. 14. Without qualifying any other statutory right to set-off or lien and subject to any contractual provision, when a party to a multiple-party account is indebted to a

credit union, the credit union has a right to set-off against the entire amount of the account.

HISTORY: New 1968, p. 80, Act 41, Eff. Nov. 15.

490.65 Repeal.

Sec. 15. Section 24 of Act No. 285 of the Public Acts of 1925, being section 490.24 of the Compiled Laws of 1948, is repealed.

492.101 Motor vehicle sales finance act; short title.

Sec. 1. This act shall be known and may be cited as the "Motor vehicle sales finance act."

HISTORY: New 1950, Ex. Ses., p. 43, Act 27, Eff. Mar. 31, 1951.

CITED IN OTHER SECTIONS: Sections 492.101 to 492.140 are cited in §§ 440.9203 and 500.1501.

492.102 Motor vehicle sales finance act; definitions.

Sec. 2. The following words, terms and phrases when used in this act shall have the meaning ascribed to them in this section, except where the context clearly indicates otherwise:

1. "Motor vehicle" shall mean any self-propelled devise [sic] in which, upon which, or by which any person or property is or may be transported or drawn upon a public highway, but excepting all tractors, motorcycles, all trailers, and semi-trailers, buses, trucks, power shovels, road machinery, agricultural machinery and other machinery not designed primarily for highway transportation, but which may incidentally transport persons or property on a public highway, and excepting such devices which move upon or are guided by a track or travel through the air.

2. "Person" includes an individual, partnership, association, business corporation, banking institution, national banking institution that elects to come under the provisions of this act, nonprofit corporation, common law trust, joint stock company or any other group of individuals however organized, and the officers, directors, employees and agents thereof.

3. "Installment buyer" or "buyer" shall mean the person who buys, hires or leases a motor vehicle under any installment sale contract or any legal successor in interest to such person, and shall continue to designate such person notwithstanding he may have entered into 1 or more extensions, deferments, renewals or other revisions of the original contract.

4. "Installment seller" or "seller" shall mean a person engaged in the business of selling, offering for sale or hiring or leasing motor vehicles under installment sale contracts or any legal successor in interest to such person. The term "business" as herein used shall not include an isolated sale.

5. "Holder" shall mean any person, including a seller, who is currently entitled to the rights of a seller under an installment sale contract.

6. "Sales finance company" shall mean a person engaged as principal, agent or broker in the business of financing or soliciting the financing of installment sale contracts made between other parties, including but not thereby limiting the generality of the foregoing, the business of acquiring, investing in or lending money or credit on the security of the retail seller's interest in such contracts whether by discount, purchase or assignment thereof, or otherwise. The term shall not include any person, banking institution or sales finance company that takes assignments of, or an interest in, an aggregation of installment sale contracts only as security for bona fide commercial loans under which, in the absence of default or other bona fide breach of the loan contract, ownership of such contracts remains vested in the assignor and collection of payments on such contracts is made by the assignor, nor any person who purchases installment

sale contracts from a sales finance company or a banking institution. The term shall include any person, whether or not licensed under this act, who as a seller finances installment sale contracts for other sellers or sales finance companies. The term shall include a banking institution.

7. "Banking institution" shall mean any bank, industrial bank, or trust company, organized and doing business under the provisions of any law of this state, or of any other state of the United States, or any national banking institution that elects to come under the provisions of this act.

8. "Retail sale" shall mean the sale of a motor vehicle for use by the buyer, or for the benefit or satisfaction which the buyer may derive from the use of the motor vehicle by another.

9. "Installment sale contract" or "contract" shall mean any contract for the retail sale of a motor vehicle, or which has a similar purpose or effect under which part or all of the price is payable in 2 or more scheduled payments subsequent to the making of such contract, or as to which the obligor undertakes to make 2 or more scheduled payments or deposits that can be used to pay part or all of the purchase price, whether or not the seller has retained a security interest in such motor vehicle or has taken collateral security for the buyer's obligation, and shall include any loan, any mortgage, any conditional sale contract, any purchase-money chattel mortgage, any hire-purchase agreement or any contract for the bailment or leasing of a motor vehicle under which the hire-purchaser, the bailee or lessee contracts to pay as compensation a sum substantially equivalent to or in excess of the value of the motor vehicle and any other form of contract which has a similar purpose or effect. The terms shall not include any sale or contract for sale upon an open book account, wherein the seller has not retained or taken any security interest in the motor vehicle sold or any collateral security for the buyer's obligation, and wherein the buyer is not required to pay any sum other than the cash price of the motor vehicle sold in connection with such sale or extension of credit, and wherein the buyer is obligated to pay for the motor vehicle in full within 90 days from the time the sale or contract for sale was made. These terms shall also mean and apply to any extension, deferment, renewal or other revision of such installment sale contract.

10. "Cash price" shall mean the price measured in dollars at which the seller would in good faith sell to the buyer or to any other buyer under like circumstances, and the buyer would in good faith buy from the seller, the motor vehicle which is the subject matter of the installment sale contract, if such sale were a sale for cash instead of an installment sale.

11. "Down payment" shall mean all partial payments whether made in cash, or otherwise, received by or for the benefit of the seller prior to or substantially contemporaneous with either the execution of the installment sale contract or the delivery of the goods sold thereunder, whichever occurs later.

12. "Principal amount financed" shall mean the unpaid cash price balance after deducting the down payment, adding the cost of any insurance premiums required or obtained as security for or by reason of the sale of a motor vehicle under an installment sale contract, and adding other costs necessary or incidental to the sale of the motor vehicle under such contract, which the seller contracts to pay on behalf of the buyer, and for the amount of which the seller agrees to extend credit to the buyer, and for which the buyer contracts voluntarily.

13. "Finance charge" shall mean the amount of the consideration in excess of the cash price which the buyer is required to pay to the seller for the credit extended by the seller to the buyer in conjunction with the sale of a motor vehicle under an installment sale contract, or it shall mean the differential between the cash sale price of the

motor vehicle and the installment sale price, exclusive of insurance premium costs and other costs necessary or incidental to an installment sale, which are specifically authorized by this act to be included in an installment sale contract.

14. "Time balance" shall mean the sum of the principal amount financed and the finance charge.

15. "Security interest" shall mean any property right in the motor vehicle which is the subject of an installment sale contract, whenever such right is retained, to secure performance of any obligation of the buyer under such contract, any extension, deferment, renewal or other revision thereof and the term shall include any lien or encumbrance against such motor vehicle, any mortgage interest in such motor vehicle, and any reservation of title to such motor vehicle, whether or not expressed to be absolute, whenever such title is in substance retained for security only.

16. "Collateral security" shall mean any security, other than a security interest in a motor vehicle, which is the subject of an installment sale contract, which is given to secure performance of any obligation of the buyer or of any surety or guarantor for him under an installment sale contract, extension, deferment, renewal or other revision thereof, and the term shall include the undertakings of any surety or guarantor for the buyer and any interest in encumbrance on or pledge of real or personal property other than the motor vehicle which is the subject of the installment sale contract.

17. "Administrator" shall mean the commissioner of the financial institutions bureau.

18. "Licensee" shall mean a person to whom has been issued a license under this act as an installment seller, or as a sales finance company, which license has not expired, has not been surrendered or revoked, and in the plural shall mean any or all persons so licensed under any or all of these 2 classifications. The term shall include any banking institution as herein defined.

19. "Public sale" shall mean a public sale after the advertising of each motor vehicle in at least 2 successive publications in a newspaper having general circulation in the village, city or township in which the sale is to be held; and such advertisement shall disclose the place at which the motor vehicle is stored and may be inspected, the date, time and place of sale, and make, model and serial number of such vehicle.

In case of disobedience of any subpoena or the contumacy of any witness appearing before the administrator, the administrator may invoke the aid of the circuit court of Ingham county, or any circuit court of the state, and such court shall thereupon issue an order requiring the person subpoenaed to obey the subpoena, or to give evidence, or to produce books, accounts, papers, records, documents and files relative to the matter in question. Any failure to obey such order of the court may be punished by such court as a contempt thereof.

492.115 Installment sale contract; sale, transfer, assignment; notice to buyer; exception; assignment contracts.

Sec. 15. (a) Whenever an installment sale contract is lawfully sold, transferred or assigned to a person who is licensed as a sales finance company, pursuant to the provisions of this act, such new holder shall furnish to the buyer in such contract a written notice of such sale, transfer or assignment, excepting when assignment is made only to secure a bona fide commercial loan or pursuant to a bulk sale of installment sale contracts. Such notices shall set forth the name and address of the new holder and shall notify the buyer of the name and address of the person authorized to receive future payments on such contract. If such notice has not been given, any payment or tender of payment made to and any service of notice on the last known holder by the buyer shall be binding upon any subsequent holder. No installment sales contract shall be sold to any person doing business in this state who is not licensed under the provisions of this act.

(b) The provisions of this section shall not apply to an assignment of an aggregation of installment sale contracts, which is executed by a seller or sales finance company in connection with a bulk sale or as collateral security for a bona fide commercial loan, obtained at lawful rates of interest from a person regularly engaged in the business of lending money on the security of such assigned collateral, and under which, in the absence of default or other bona fide breach of the loan contract, ownership of the assigned contracts remains vested in the assignor and collection of payments on such assigned contracts is made by the assignor: And provided, That such assignment and loan contracts are not for the purpose of evading or circumventing the provisions of this act.

492.116 Installment sale contract; insurance of vehicle, limitation, coercion prohibited; premium cost, buyer's certificate, terms of contract, cancellation.

Sec. 16. (a) The buyer of a motor vehicle under an installment sale contract may be required to provide insurance on such motor vehicle at the buyer's expense for the protection of the seller or subsequent holder. Such insurance shall be limited to insurance against substantial risk of damage, destruction or theft of such motor vehicle: Provided, however, That the foregoing shall not interfere with the liberty of contract of the buyer and seller to contract for travel emergency benefits pertaining to the operation of the automobile or other or additional insurance as security for or by reason of the obligation of the buyer, and inclusion of the cost of such insurance premium and said travel emergency benefits in the principal amount advanced under the installment sale contract. Such insurance shall, if possible to obtain, be written for the dual protection of the buyer and of the seller, or subsequent holder, to the extent of his interest in the motor vehicle. Such insurance shall be for an amount, and period of time, and upon terms and conditions, which are reasonable and appropriate considering the type and condition of the motor vehicle, the amount of the time balance and the schedule of payments in the installment sale contract. In the event such insurance cannot be obtained for the dual protection of the buyer and the seller, or subsequent holder, or if obtained, is cancelled by the insurance company prior to expiration, the seller, or subsequent holder, may obtain insurance to protect his interest in the motor vehicle and the buyer may be required to pay the cost thereof. In such event, the seller, or subsequent holder, shall promptly notify the buyer that such insurance can-

not be obtained, or is cancelled, and credit to the buyer the difference between the amount charged by the seller for such dual protection insurance and the cost to the seller of such single interest insurance (less, in the event of cancellation, the earned premium on the dual interest insurance for the period it is in force): Provided, That whenever such insurance is written for the protection of the seller, or subsequent holder, only, neither the insurance company issuing the policy nor any other person shall be subrogated to the rights of the insured as against the buyer.

(b) The buyer of a motor vehicle under an installment sale contract shall have the privilege of purchasing such insurance from any insurance company, agent or broker authorized to do business in Michigan other than the installment seller. No installment seller shall coerce, threaten, or in any manner influence any installment buyer to purchase insurance from any insurance company, agent or broker designated by such seller: Provided, however, That the inclusion of the cost of the insurance premium in the installment sale contract, when the buyer selects the company, agent or broker, shall be optional with the seller.

(c) Whenever the seller contracts to purchase, at the buyer's expense, such insurance on a motor vehicle sold under an installment sale contract, such insurance shall be purchased through an agent and/or broker or other person, authorized to conduct business in Michigan, and such insurance shall be written by an insurance company qualified to do business in Michigan. The status of the buyer and seller or holder, as set forth in such insurance contract, shall conform to the status of these parties in the installment sale contract. The cost of the premium on such insurance to the buyer shall not be in excess of the amount of the premium which others are required to pay to such insurance company for similar coverage, and in no event in excess of rates established in the then current published applicable manual of a recognized standard insurance rating bureau, or the rates fixed by authority of the state of Michigan.

(d) Whenever the seller contracts to purchase, at the buyer's expense, such insurance on a motor vehicle sold under an installment sale contract, a certificate of insurance and a statement showing itemized cost of such insurance shall be delivered to the buyer within 25 days of the date of the buyer's signing of the installment sale contract.

(e) The insurance policy or certificate of insurance on the motor vehicle which is furnished to the buyer, when the insurance is placed by the seller or subsequent holder at the buyer's expense, shall set forth complete information as to the effective dates, amounts of premiums and coverage, and shall contain all the terms of the insurance contract.

(f) When the seller or subsequent holder has placed, at the expense of the buyer, insurance on a motor vehicle sold under an installment sale contract and the buyer pre-pays the time balance under the contract prior to the expiration date of the insurance, such insurance shall remain in force unless the buyer requests cancellation thereof. The seller or holder shall not cancel the insurance under such circumstances without the buyer's consent, nor shall the seller or holder coerce the buyer to cancel the insurance. Unexpired insurance premiums received by the seller or holder, resulting from cancellation of insurance which was originally placed at the buyer's expense, shall be used in procuring comparable insurance as in subsection (g) of this section provided, and if such insurance cannot be obtained, shall be paid to the buyer or credited to any matured unpaid installments under the contract.

(g) When the seller contracts to purchase insurance at the buyer's expense and such insurance is cancelled by the insurance company prior to expiration, the seller or subsequent holder shall attempt to place comparable insurance with another insurance company and furnish or cause to be furnished to the buyer a copy of the insurance policy or certificate of insurance, subject to the same requirements of this act applicable

to the original policy. In the event the holder is unable to obtain such insurance in another insurance company, he shall promptly notify the buyer by registered mail, addressed to the buyer at the address appearing upon the installment sale contract, unless the seller is in receipt of written notice of a change in the buyer's address, and in such event addressed to the buyer at such changed address. The buyer may then obtain such insurance from an insurance company, agent or broker of his own selection. The holder shall also be liable to the buyer for any loss suffered by the buyer through negligence on the part of the holder in promptly mailing notice to the buyer of his inability to obtain replacement insurance.

492.116a Unexpired insurance premiums; crediting.

Sec. 16a. If unexpired insurance premiums received by the seller or holder resulting from the cancellation of insurance which was originally placed by the buyer's expense cannot be used in procuring comparable insurance as in section 16, subsection (g), such unexpired insurance premiums shall be credited to the last maturing installments under the contract.

HISTORY: Add. 1954, p. 322, Act 132, Imd. Eff. Apr. 23.

492.117 Installment sale contract; costs; fees.

Sec. 17. 1. Fees, payable to the state of Michigan, for filing a lien or encumbrances on the certificate of title to a motor vehicle sold under an installment sale contract or collateral security thereto.

2. Fees, payable to a public official, for filing or recording and satisfying or releasing the installment sale contract or instruments securing the buyer's obligation.

3. Fees for notarization required in connection with the filing and recording or satisfying and releasing a mortgage, judgment lien or encumbrance.

(b) The seller of a motor vehicle under an installment sale contract may also contract with the buyer to pay, on behalf of the buyer, such other costs incidental to the sale of a motor vehicle and contracted for voluntarily by the buyer as follows:

Fees, payable to the state of Michigan, for registration of the motor vehicle and issuance or transfer of registration plates.

(c) The foregoing costs may be charged, contracted for, collected or received by the seller from the buyer independently of the installment sale contract, or the seller may extend credit to the buyer for the amount of such costs and include such amount in the principal amount financed under the installment sale contract.

(d) Such other costs paid or payable by the buyer shall not exceed the amount which the seller expends or intends to expend therefor. Any such costs which the seller has collected from the buyer, or which have been included in the buyer's obligation under the installment sale contract which are not disbursed by the seller, as contemplated, shall be immediately refunded or credited to the buyer.

this state which shall not exceed the rates indicated for the respective classification of motor vehicles as follows:

Class I. Any new or used motor vehicle designated by the manufacturer by a year model of the same or 1 year prior in which the retail sale, then being financed, is made, \$6.00 per \$100.00 per year.

Class II. New or used motor vehicles of a model designated by the manufacturer by a year not more than 2 years prior to the year in which the sale is made, \$9.00 per \$100.00 per year.

Class III. New or used motor vehicles of a model designated by the manufacturer by a year more than 2 years prior to the year in which the sale is made, \$12.00 per \$100.00 per year.

(b) Such finance charge shall be computed on the principal amount financed as determined under section 13(b)6 of this act.

(c) Such finance charge shall be computed at the annual rates permitted by section 18(a) on installment sale contracts which are payable by installment payments, extending for a period of 1 year. On installment sale contracts providing for installment payments, extending for a period which is less than or greater than 1 year, the finance charge shall be computed proportionately.

(d) Such finance charge may be computed on the basis of a full month for any fractional month period in excess of 10 days.

(e) A minimum finance charge of \$15.00 may be charged on any installment sale contract in which the finance charge, when computed at the rates indicated, results in a total charge of less than this amount.

Sec. 19. (a) The holder of an installment sale contract may extend the scheduled due date, or defer payment or payments, or renew the unpaid time balance of such contract.

(b) The holder may contract for, receive and collect a refinance charge for such extension, deferment or renewal. Such refinance charge shall not exceed the amount ascertained under either of the following methods of computation at the respective rates indicated by—

1. In the event 1 or more installment payments are extended or deferred, computing the refinance charge on the amount of the installment payment or payments or part thereof which is refinanced, for the period of time for which each payment or part thereof is extended or deferred, at the following rates on contracts originally in the respective classification of motor vehicles set forth in the preceding section of this act:

Class I. One per cent per month.

Class II. One and one-half per cent per month.

Class III. Two per cent per month.

Such refinance charges may be computed on the basis of a full month for any fractional month period in excess of 10 days.

2. In the event the unpaid balance of the contract is refinanced or renewed, computing the refinance charge on the amount obtained by adding to the unpaid time balance of the contract, the insurance cost and other costs incidental to refinancing, by adding unpaid default charges, which may be accrued, and by deducting any rebate which may be due to the buyer for prepayment incidental to refinancing, at the rate of the finance charge specified in subsection (a) of section 18 and by reclassifying the motor vehicle by its then year model, for the term of the renewal contract, but otherwise

subject to the provisions of this act governing computation of the original finance charge. The provisions of this act governing minimum finance charges and minimum prepayment rebate shall not apply in calculating refinance charges on the contract renewed under this method of computation.

(c) The holder of an installment sale contract shall not include in any contract for refinancing such contract any cash loan to the buyer, nor any credit extended to the buyer incidental to the purchase of goods or services: Provided further, That the word loan herein shall not include, nor this act prohibit, a rearrangement of payments under the installment sale contract by a refinance transaction involving a restoration of certain installment payments made under the contract, but the refinance charge on such amount restored may not be more than 7% per annum, simple interest: And provided further, however, That the holder of such contract may embody in such refinance contract the cost of accessories, equipment and parts for the motor vehicle sold under such contract, and the cost of repairs and services to such motor vehicle including finance charges thereon.

Such default charge may be computed on the basis of a full calendar month for any fractional month period in excess of 10 days. Such default charges may be collected, when earned, during the term of the contract, or may be accumulated and collected at final maturity, or at the time of final payment under the contract. Such default charge shall not be collected on any payment in default because of any acceleration provision in the contract.

Rebate may be made in cash or credited to the amount due on the obligation of the buyer.

(c) Any fact or condition exists which, if it had existed at the time of the original application for such license, clearly would have warranted the commissioner in refusing originally to issue such license.

If the commissioner shall find that probable cause for revocation of any license exists and that the enforcement of the act requires immediate suspension of such license pending investigation, he may, upon 3 days' written notice and a hearing, suspend any license for a period not exceeding 30 days.

The commissioner may revoke or suspend only the particular license with respect to which grounds for revocation or suspension may occur or exist, or, if he shall find that such grounds for revocation or suspension are of general application to all offices, or to more than 1 office, operated by such licensee, he shall revoke or suspend all of the licenses issued to said licensee or such licenses as such grounds apply to, as the case may be.

Any licensee may surrender any license by delivering to the commissioner written notice that he thereby surrenders such license, but such surrender shall not affect such licensee's civil or criminal liability for acts committed prior to such surrender.

No revocation or suspension or surrender of any license shall impair or affect the obligation of any pre-existing lawful contract between the licensee and any borrower.

Every license issued hereunder shall remain in force and effect until the same shall have been surrendered, revoked, or suspended in accordance with the provisions of this act, but the commissioner shall have authority on his own initiative to reinstate suspended licenses or to issue new licenses to a licensee whose license or licenses shall have been revoked if no fact or condition then exists which clearly would have warranted the commissioner in refusing originally to issue such license under this act.

Whenever the commissioner shall revoke or suspend a license issued pursuant to this act, he shall forthwith file with the state banking department a written transcript of evidence and an order to that effect and findings with respect thereto containing the evidence and the reasons supporting the revocation or suspension, and forthwith serve upon the licensee a copy thereof.
